Summary

This document will focus on summarizing and proving that Pyrocynical has numerous victims in which he inappropriately messaged. Niall is on record engaging in ERP with minors, posting NSFW to minors, soliciting NSFW content, pushing them to create fetish artwork as well as engaging in their erotic fantasies. Pyrocynical knew the age of multiple minors.

This document contains new information and debunks Pyrocynical's initial response.

Saku - 15

xPoutine was an **old associate of Pyrocynical** who alleged that Niall behaved inappropriately with them while he himself was an adult, posting pornography to him as well as discussing and disseminating fetish based content.

Saku is seen stating he was **16** on Twitter during early 2017. **This effectively nullifies any excuse that he was secretive, lying or not open about his age.**

Saku is seen on Twitter celebrating his **24th birthday on 27th February 2025**, meaning his date of birth would be **27th February 2001**. This effectively means that the age gap between Saku and Niall would have been **3 years 9 months 13 days.**

As provided by these screenshots, Saku consistently posted images of his face on his Twitter account and his appearance was public knowledge. It was very evident to decipher the fact that **he was obviously underaged**, and **close mutuals** to Saku such as '@frostfireee', **knew Saku was below the age of 18** and made joke comments about them having to go to school and do exams.

This was all while Pyrocynical could still access Twitter in early December 2016, and while **Pyrocynical made a video referring to a comment he had made inside of it.**

The video Pyrocynical made referencing Saku's tweet and in the same timeframe Pyrocynical was seen messaging Saku's discord account, was the same time period where Saku was seen consistently posting his face to mutuals in Twitter replies and being open with what he looks like; even with people stating he looked young with someone stating that **he looked prepubescent.**

idk something like that probably exists but it's been so long i wouldn't even know where to look

he for sure knew

there was like this meme where we'd send stretched out and zoomed in versions of our faces, i was pretty obviously 15 but i don't think im in like half the groupchats anymore

23:30

Saku is seen replying to a user stating that he 'doesn't look 8', obviously in reply to the user claiming he looked very young.
Saku is also seen attesting to me in private Twitter DM's that **while Niall did know his age**, many of the groupchats present have been **lost to time and are inaccessible**, this doesn't detract credibility to his claims however, as he fluidly states that he would **regularly post images of his face when he was 15, and it was abundantly obvious that he was underaged**. Many of his associates knew him to still be below the age of 18 too, and that he still went to school.

Such instances provided of Saku posting his face were posted while Pyrocynical was **still active on Twitter** and **not suspended [December 2016]**, and actively engaging with Saku on discord.

Ask @404Sakuu he will tell you. If he denies it you know he is a simp I mean he changed his name from **xpoutine** because @fauxre told him to.

For more clarification, **xPoutine** is the old alias that Saku originally operated under, before he was allegedly told to change it.

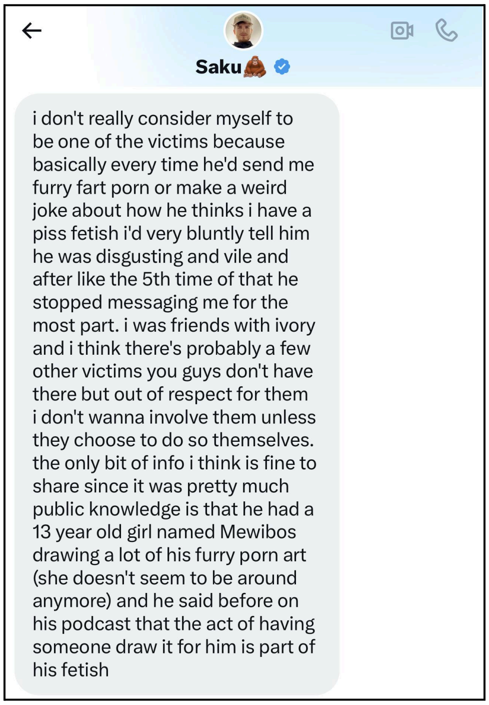
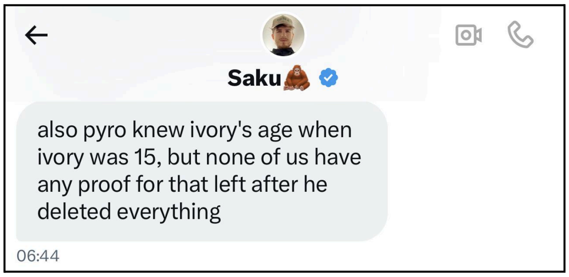
During the creation of this document, **I had reached out to contact Saku** about his experiences with Niall.



Saku💩

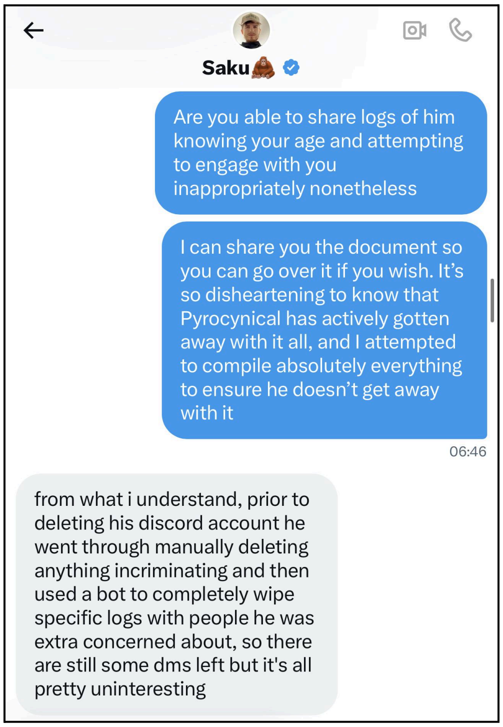
i don't really consider myself to be one of the victims because basically every time he'd send me furry fart porn or make a weird joke about how he thinks i have a piss fetish i'd very bluntly tell him he was disgusting and vile and after like the 5th time of that he stopped messaging me for the most part. i was friends with ivory and i think there's probably a few other victims you guys don't have there but out of respect for them i don't wanna involve them unless they choose to do so themselves. the only bit of info i think is fine to share since it was pretty much public knowledge is that he had a 13 year old girl named Mewibos drawing a lot of his furry porn art (she doesn't seem to be around anymore) and he said before on his podcast that the act of having someone draw it for him is part of his fetish



Saku💩

also pyro knew ivory's age when ivory was 15, but none of us have any proof for that left after he deleted everything

06:44



Saku💩

Are you able to share logs of him knowing your age and attempting to engage with you inappropriately nonetheless

I can share you the document so you can go over it if you wish. It's so disheartening to know that Pyrocynical has actively gotten away with it all, and I attempted to compile absolutely everything to ensure he doesn't get away with it

06:46

from what i understand, prior to deleting his discord account he went through manually deleting anything incriminating and then used a bot to completely wipe specific logs with people he was extra concerned about, so there are still some dms left but it's all pretty uninteresting

Saku is seen stating that he personally doesn’t consider himself a victim because in every instance that Pyro would send him NSFW content or make inappropriate jokes to him, he would personally cut it off, and eventually according to him, Pyrocynical stopped messaging after the 5th instance. He stated that there are **other victims** and people who were **personally affected by Pyrocynical**, however he will not name them to respect their personal boundaries. Saku did however mention a person named **Mewibos**, who we have discussed earlier.

When having contacted Saku in private about their experiences with Niall, they discussed how Pyrocynical used a bot to wipe all his messages with people he was concerned about, or **manually deleted messages which could have incriminated him**.
He then goes on to show alleged discord messages between him and Pyrocynical in a group-chat from **4th February 2017**, when he would be **15**, and Niall would have been **19**.

Pyrocynical is seen in these group-chat messages talking about the description of a YouTube video from 2012 with Saku, with then him completely out of nowhere sending **a link to an image of his entire collection of furry fetish porn images in which he commissioned**, including an entire file of the alleged content.

Many such images present contained **exposed buttocks, tights, sexualised and suggestive body parts** in which are significantly disproportionate to the body, and it is **indubitably fetishistic content in which Niall allegedly commissioned to illicit sexual gratification.** Pyrocynical, despite knowing that this content is inherently sexual and pornographic, sent it to Saku who was a 15 year old regardless.

06:58

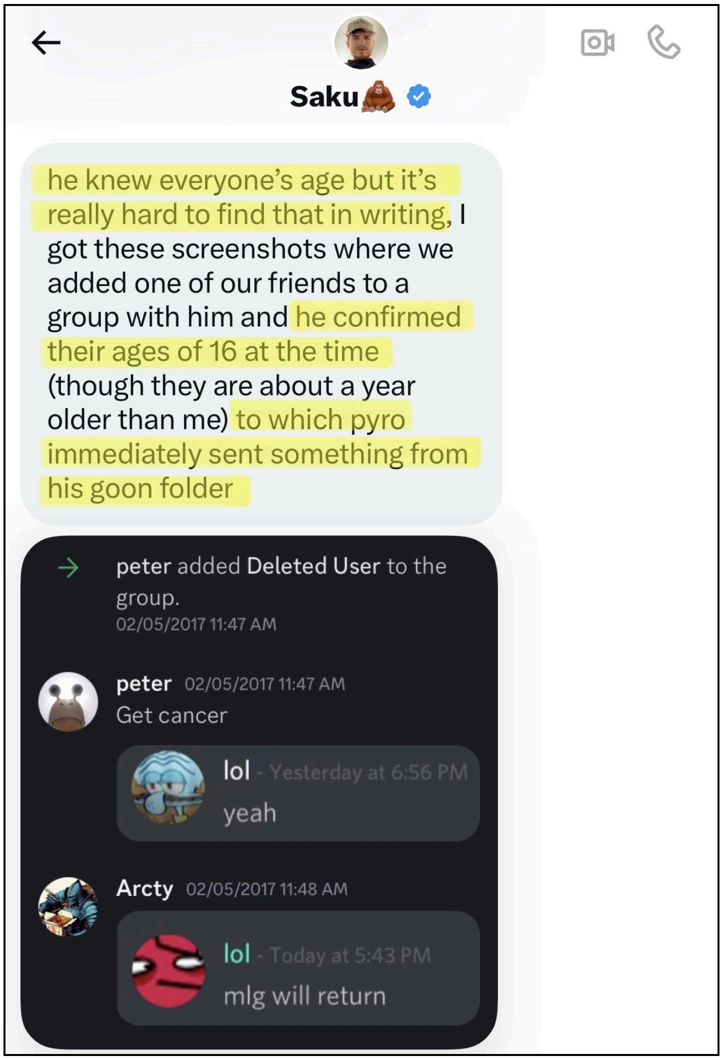
Saku also goes on to show discord logs between him and allegedly Niall, where **he claims Pyrocynical sent furry inflation porn to him**, in which he then **later deleted**. This can be easily deciphered due to the conversation change, where the account being alleged to be Niall, said “Always asking if I can call him b stuff”, to then Saku stating “You have an unhealthy obsession”. There is only one logical explanation for such a large conversational shift and that would be that Niall clearly posted something to elicit such a reaction from Saku.

The account allegedly being claimed to be Pyrocynical follows up by stating, “I do not”, “You’re probably into traps or smth”, to which Saku states, “get help Pyrocynical”.
This adds significant credibility to Saku’s allegations as in discord logs from 2017, he directly refers to the account as “Pyrocynical”.
Furthermore, Pyrocynical is seen mentioning that the 15 year old would “probably be into traps”, which is yet another sexual fetish and topic in which fits with the numerous other alleged instances of Pyrocynical discussing sexual kink based fetishes with his fans who are significantly younger than he is.



he knew everyone's age but it's really hard to find that in writing, I got these screenshots where we added one of our friends to a group with him and he confirmed their ages of 16 at the time (though they are about a year older than me) to which pyro immediately sent something from his goon folder

Saku states that Pyrocynical allegedly knew the age of everyone in regards to a group chat he was added to with numerous minors. Saku states that his friends who were added in a group chat with Niall made their age known to him being 16. To which according to Saku, Pyrocynical immediately posted a suggestive Overwatch fetish commission art piece he had in his files. **Not being dissuaded whatsoever by their age.**

A user named Peter who Pyrocynical was mutuals with is seen adding Pyrocynical's account to the group chat, with him and then Arcty posting archived screenshots of the messages in which Pyrocynical sent on that account, showing that he had the discord name "lol", and showing how he had the Kelpy G profile picture he used for his Twitter at the time and also his fox fursona art.

A user named Krisp is seen referring to the deleted account which is allegedly Pyrocynical as “Niall”, being his name. Krisp asks Pyro if they were best friends to which Pyrocynical is seen asking “who are you”. To which Saku is seen laughing, Krisp is seen stating that he is Peter’s brother and with Peter posting another discord screenshot message of Pyrocynical stating “yeah”.

Krisp makes his age and Peter’s ages known on **February 5th 2017** by stating that they were born on 17th August 2000. This effectively means that if they were actually brothers, they would be twins born on the same day. This would also have made them 16 at the time of these message exchanges, as this took place on 5th February 2017. Niall would have been 19.
Peter is then seen posting a screenshot of when the deleted account had sent “who are you”, showing that at the time, it bore the exact same name and discord profile picture as the actual Pyrocynical.
This would also essentially mean that Pyrocynical knew these users were minors **as they made their age known to him** and yet continued nonetheless.

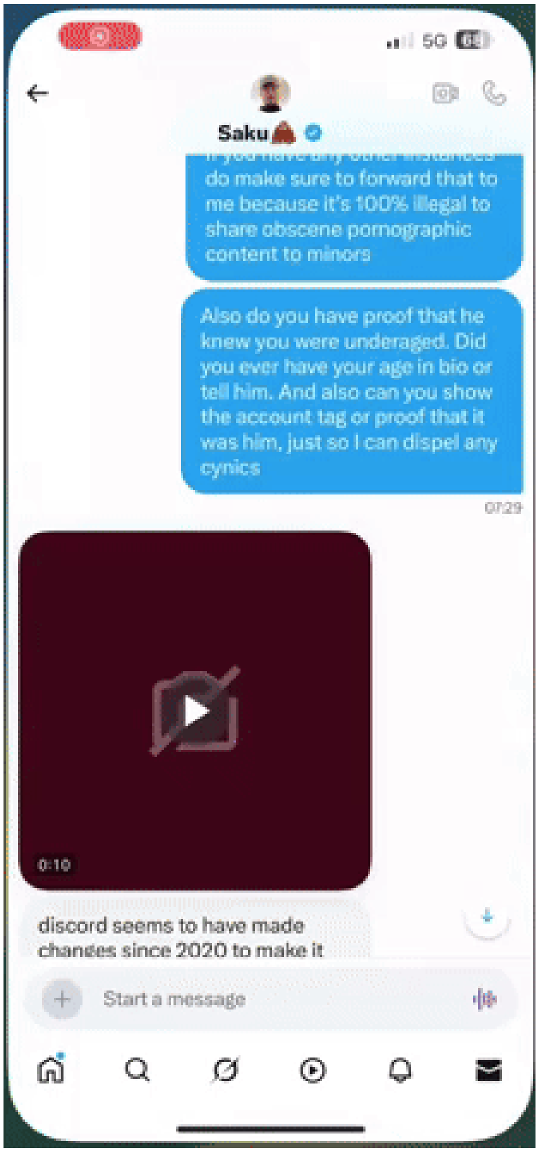
The age gap between Niall and the two brothers would have been **2 years 8 months**. Not inherently predatory, however **it shows a pattern once again of Pyrocynical sending sexualised fetish based content to minors he knew the age of.**

Despite Krisp and Peter's age being known to Pyrocynical regardless, over an hour later he is seen randomly **posting suggestive fetishised Overwatch commission art** he had on his computer to the 2 minors. With Krisp being surprised and stating "wtf".

Pyrocynical is clearly observed in this instance not being dissuaded from posting fetish content to minors, which helps to paint a picture in reference to his other allegations regarding numerous minors.



Saku

do make sure to forward that to me because it's 100% illegal to share obscene pornographic content to minors

Saku also **provided a video** of him showing messages from **4th February 2017**, where Pyrocynical is seen **sending another example of an art piece commission he had of a fetishised Overwatch character with large breasts and large buttocks**, which is inherently suggestive and NSFW. Pyrocynical had posted this in a group chat which had both Peter and Saku present.

Despite Peter's brother Krisp stating that their birthdays were on the same day a day later on 5th February 2017, Krisp most likely had done this to verify his authenticity and it is **unknown** when Pyrocynical actually knew Peter's age. Regardless however, after being notified that they were minors, Pyrocynical still proceeded to post fetish content to them and not delete his prior instances of posting NSFW Overwatch fetish content.

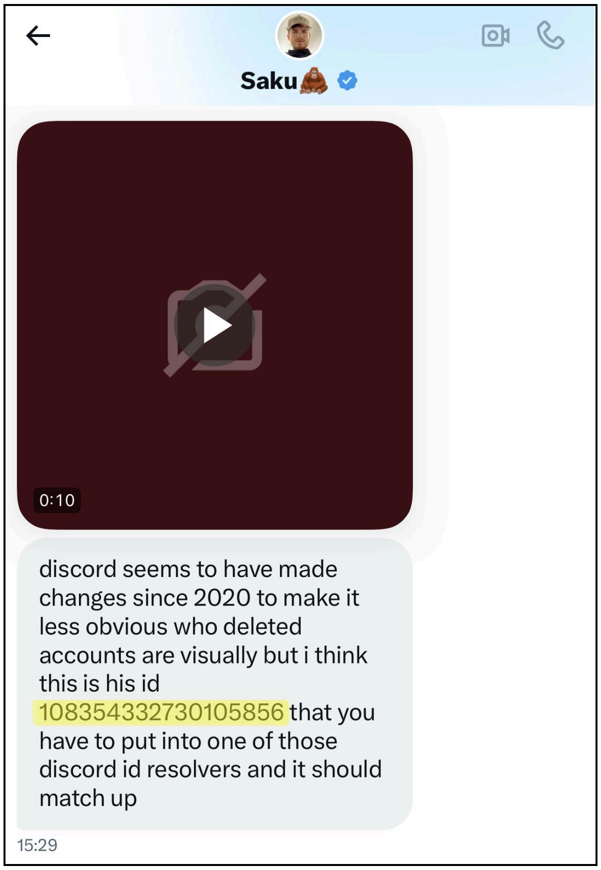
In the video it shows that the deleted user has the ID, “**108354332730105853**”. The fetish material files that Pyrocynical was seen sending his been blurred.

When cross-referencing this with the screenshots provided by Ivory in 2020, you can clearly see the discord ID’s of the accounts match. The ID of the account shown in the video provided by Saku, matches directly with the discord account Niall actually owned that operated his own discord server which also had the tag “lol#9982”.



discord seems to have made changes since 2020 to make it less obvious who deleted accounts are visually but i think this is his id 108354332730105856 that you have to put into one of those discord id resolvers and it should match up

Despite there being no message evidence that Pyrocynical knew Saku to be underaged, not only was **Saku friends with minors all collectively younger than Pyro** [in similar age to himself] and engaged in friend circles with them, but when Pyro was seen being told by two of Saku’s friends that they were twins and minors, Niall continued regardless. Pyrocynical was at bare minimum, incredibly negligent as to not verify his age and this magic excuse to reduce culpability **can only be used so many times** before a concerning pattern starts to develop. Especially when **Pyrocynical has exhibited a pattern of behaving with minors despite knowing their age regardless such as when he pried a 15 year old girl to create fetish art of his character after knowing her age and continuing nonetheless.**

The same Overwatch fetish image Pyrocynical commissioned in which he showed in his video titled “$3 BuzzFeed Vs. $9999 BuzzFeed” created on **27th December 2016**, was posted over a month later to Saku and Peter who were both minors on **4th February 2017.**
This adds credibility to Saku’s allegations as the same account that posted this image, also shared their computer files compiling numerous instances of Overwatch fetish content that were never publicly shown but were drawn in the same style as the initial Overwatch fetish image presented, adding on to the idea that this was most likely Pyrocynical.

Saku aka xPoutine is seen sarcastically pretending to be a Pyrocynical supporter and then jokingly being seen playing down his friendship and associations with Pyrocynical by claiming "we weren't close…", but then stating that Pyrocynical **insisted that he had a sexual fetish** and sent him **numerous different instances of furry fetish porn**, which matches cohesively with all the other instances of Pyrocynical being alleged to have done the exact same to other minors.

https://x.com/404sakuu/status/1731011190225350772?s=46

Saku is then seen on Twitter stating that according to him, Pyrocynical **furry roleplayed with 3 of his friends while he was 16.**

In the other screenshots provided, Saku is once again seen posting discord messages he had with allegedly Pyrocynical with the name 'lol' and the Kelpy-G profile picture that was infamous with his branding in 2016/17. These screenshots build on the idea that he had direct contact with Niall for an **extended period of time**, from 2016-2017. This adds credibility to Saku's allegations.

He never once. Told me to stop. He would have been 19-20 around this period.

Instead he allowed me to make fetish *artwork* of him (both his fox sona and dragon one).

On January 20th 2023, Pink had come out claiming that they were **allegedly** taken advantage of and **groomed** by Pyrocynical when they were **15-16**, and that Pyrocynical had actively engaged in sexual activities and he discussed his sexual fetishes with them.
They go on to establish that Pyrocynical allegedly absolutely knew of their age and that they spoke about it on discord calls numerous times.
They stated how they never came out about it sooner because they never released the severity of it until they grew up and that they thought the interactions were normal.
They state that they don’t have the screenshots and that Pyrocynical’s discord account has been long deleted, followed by them stating that they would be taking down their accounts shortly after, they had over 1,000 followers and years of Tweet history, however after making this tweet they **deactivated permanently.**

Maybe I will change my mind later down the line I don't know, I'm sorry I'm just not in a spot were I can help out

After consulting Pink, he apologised for the miscommunication and being partially hostile at the start because understandably, **they were extremely stressed out**. They prefaced the fact that maybe they would change their mind in regards to coming out about the allegations later on down the line, **but currently they are not in a spot where they could do so**.

🟥 The age difference between the two is: 4 years 2 months 6 days.

By looking at archived tweets, (which will not be linked to protect the identity of the victim), their birthday is on **July 20th**. Since they are **23** as of the creation of this document, that effectively means they are turning **24** this year. Meaning that they were born in **2001**, allowing us to find out their date of birth was **July 20th 2001**, making this **alleged** age gap between them and Pyrocynical, the largest age gap present so far with it being over 4 years 2 months.
They were public and open about their age being 15 as shown in their Twitter bio during 2016 in the archived screenshot. Meaning any excuse or attempt at plausible deniability in regards to not knowing their age falls flat.

On their Tumblr page, their age was also present in their description, clearly illustrating how they were **15**.

While this specific allegation does not contain as much evidence as other cases, it is extremely important to highlight the fact that this user was **actively followed by Pyrocynical**, and that it is especially important to give all victims a voice. This certain testimony has been included to highlight a **pattern of minors** who Pyrocynical actively followed, coming out years later to accuse him of inappropriate behaviour and **grooming** behaviours.

Assault who went by the Twitter alias "@uhsalt" was a commentary orbiter who was associated with DolanDark, SolidShibe and Pyrocynical himself. It was public knowledge that Assault was a minor in the community with their date of birth being **30th March 2001**, with tweets congratulating his 16th Birthday being made on 30/03/2017.

This effectively meant that there is a **3 year 10 month age gap** between Assault and Pyrocynical, which is important to consider when taking into account what was discussed between them in DMs. **The age gap was extremely close to 4 years** and there isn't much difference developmentally in terms of a 3 year 10 month age gap and a 4 year age gap, both are **extremely concerning age gap dynamics** that should not be engaged with by an adult YouTuber with a sizable platform and influence in regards to a minor who is a fan of their content.

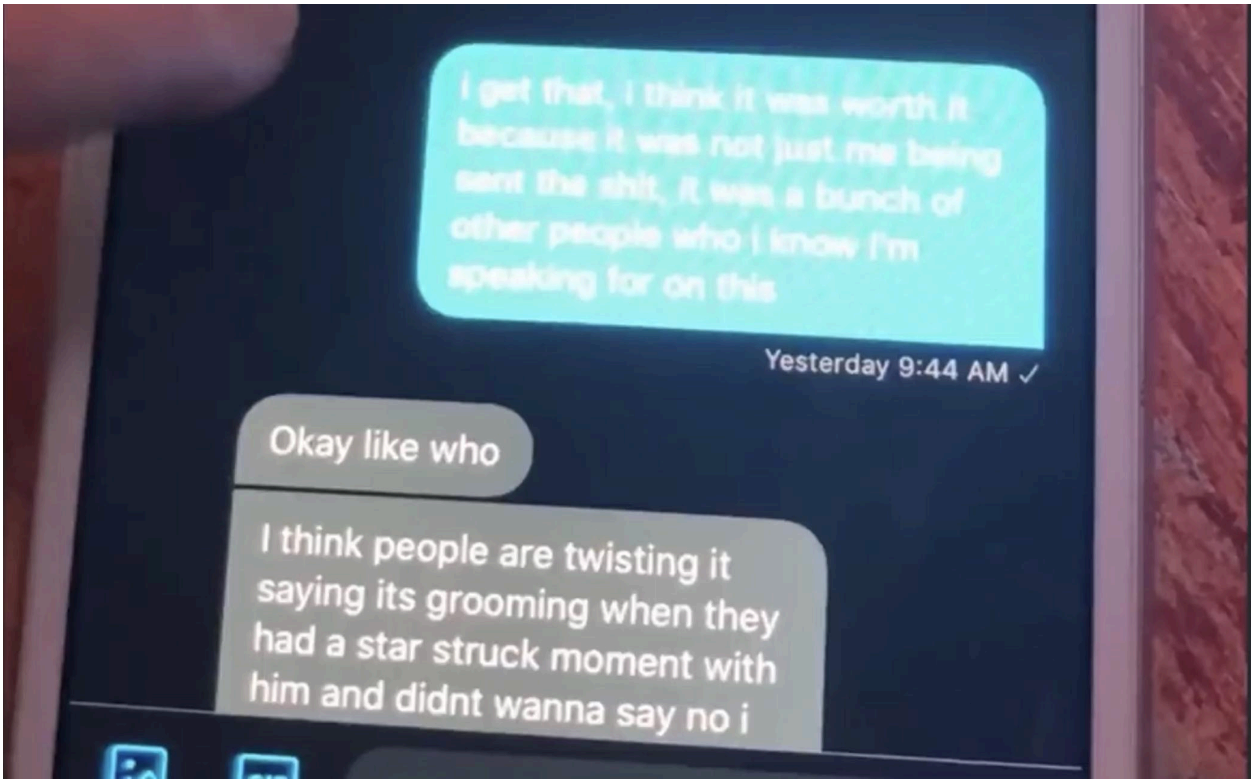
🟥 The age difference between the two is: 3 years 10 months 16 days.

Assault was mentioned briefly by Ivory in DMs with Ida, where she proceeded to victim blame him and attempt to justify the age gap between him and Niall.



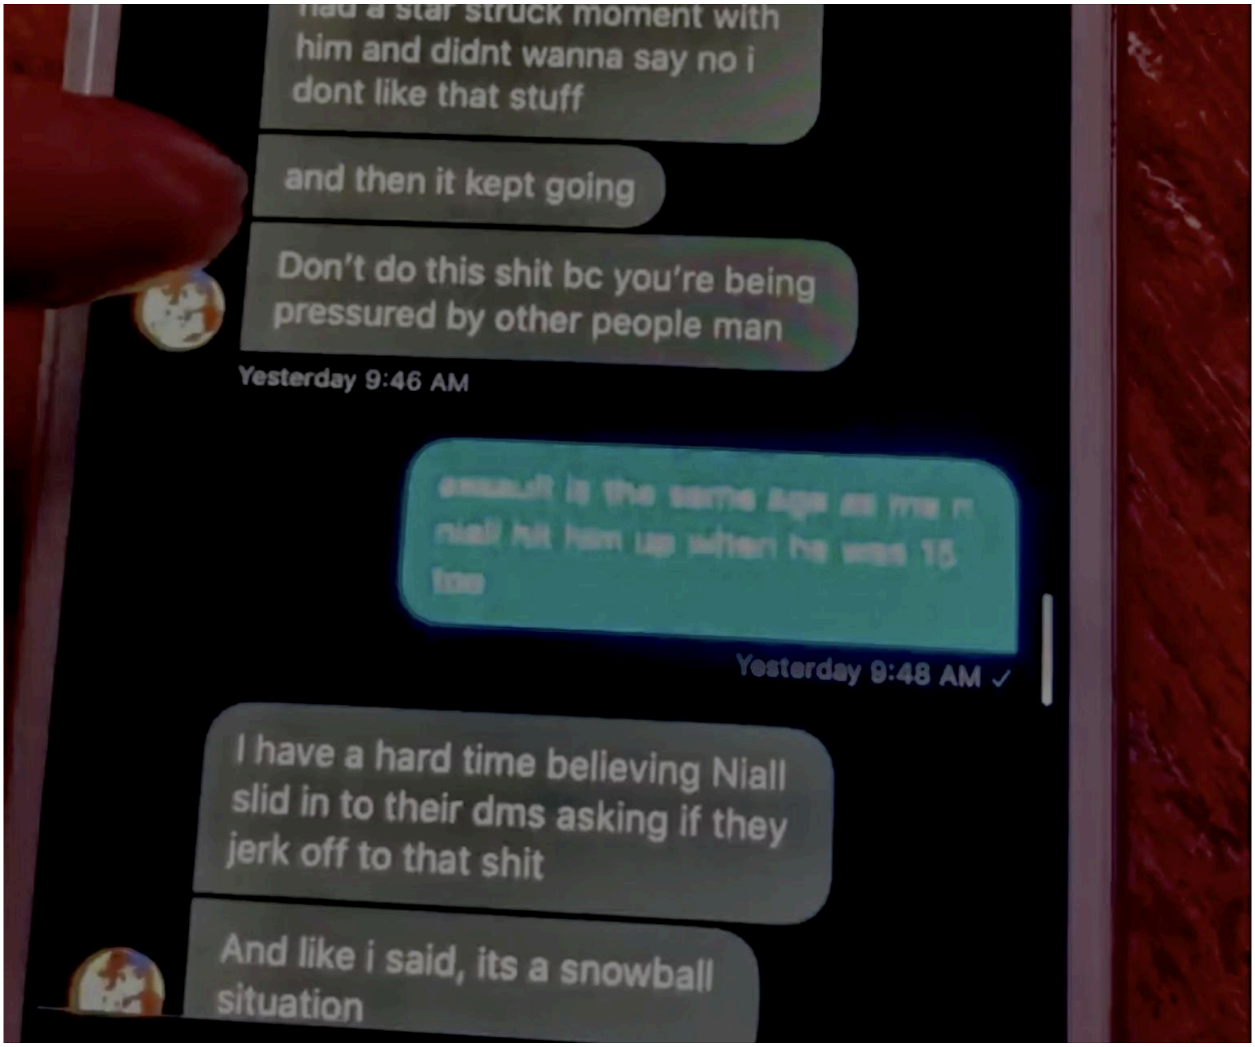
I get that, i think it was worth it because it was not just me being sent the shit, it was a bunch of other people who i know I'm speaking for on this

Yesterday 9:44 AM ✓

Okay like who

I think people are twisting it saying its grooming when they had a star struck moment with him and didnt wanna say no i

Ivory was seen stating that he wasn't the only person affected by Niall's actions and that there were a "**bunch of other people**". Ida states in response "like who?"



had a star struck moment with him and didnt wanna say no i dont like that stuff

and then it kept going

Don't do this shit bc you're being pressured by other people man

Yesterday 9:46 AM

assault is the same age as me n niall hit him up when he was 15 too

Yesterday 9:48 AM ✓

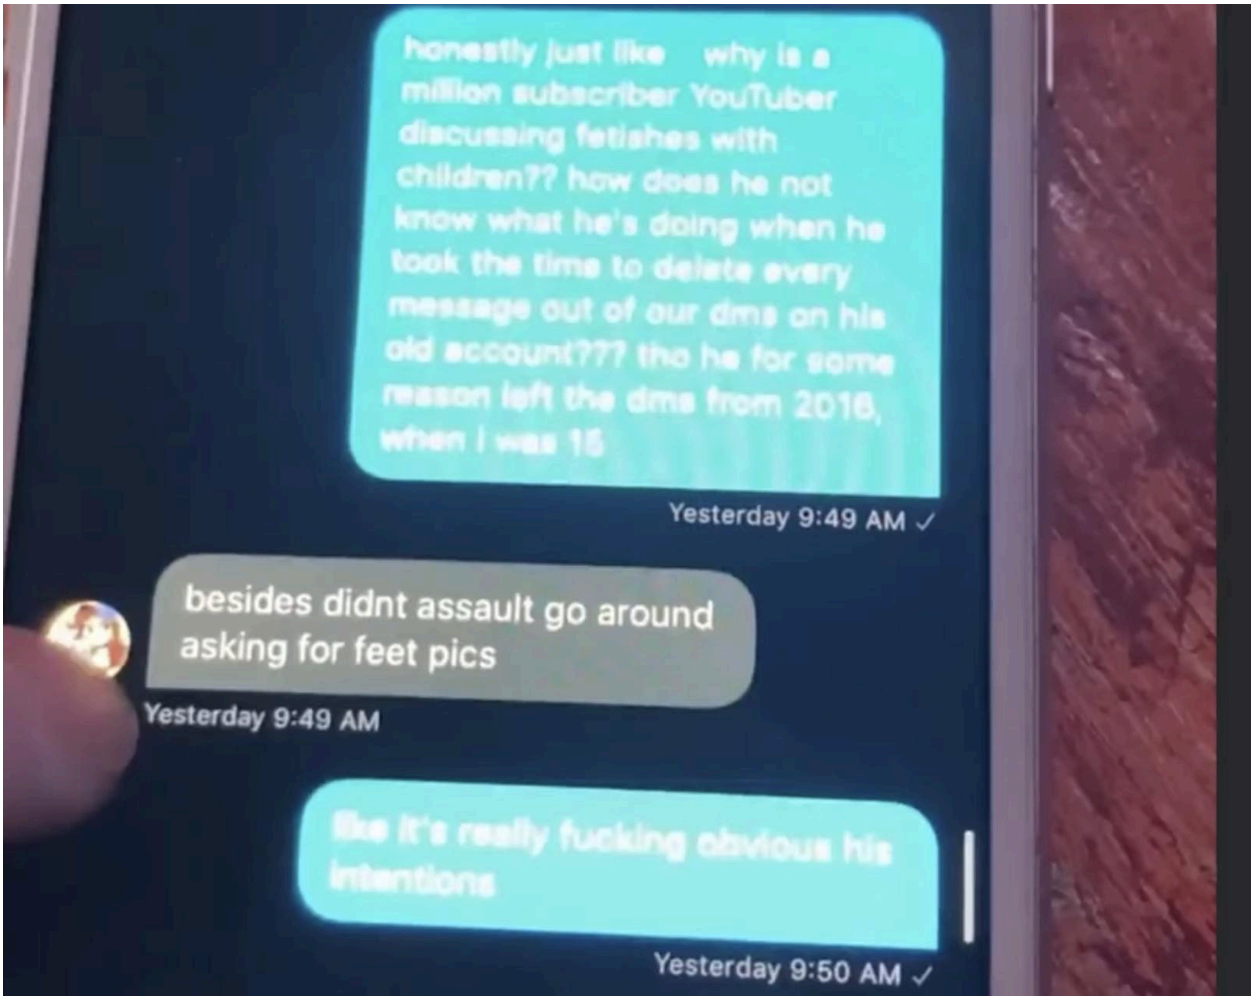
I have a hard time believing Niall slid in to their dms asking if they jerk off to that shit

And like i said, its a snowball situation

Ivory was seen stating; "Assault is the same age as me and Niall hit him up when he was **15** too"

In response Ida is seen casting doubt on whether Niall actually engaged in fetish discussions with Assault, **but does not deny the fact that Assault was 15** [or at least a minor during the time], nor the idea that Niall ever actually engaged in private conversations and messages with Pyrocynical, only that she has a "hard time believing" Niall slid into their DMs asking about inappropriate, fetish-based topics.

This can also prove that people involved in the same community and friend circles in regards to Assault including both Ida and Ivory who were **extremely close to Niall** at the time, **both collectively knew that Assault was a minor**, meaning there is reasonable suspicion to believe that Pyrocynical did too.



honestly just like why is a million subscriber YouTuber discussing fetishes with children?? how does he not know what he's doing when he took the time to delete every message out of our dms on his old account??? tho he for some reason left the dms from 2016, when I was 15

Yesterday 9:49 AM ✓

besides didnt assault go around asking for feet pics

Yesterday 9:49 AM

like it's really fucking obvious his intentions

Yesterday 9:50 AM ✓

Furthermore it can be seen that Ivory stated how immoral it was for a popular YouTuber to be discussing fetishes with their underaged fans. He also went on to allude that it was obvious that Pyrocynical purged many of his messages out of guilt.

Ida is then seen **deflecting** the situation and bringing up how Assault asked for feet pictures, **which does not invalidate anything Ivory had said in regards to Niall allegedly behaving inappropriately with Assault when he was 15**. Ida being seen deflecting the situation and not flat out denying that Niall ever interacted with this other 15 year old is a massive **red flag** and it is very unusual for why this was completely ignored by everyone.

The discourse behind the Assault "foot fetish" situation is detailed with many users making jokes or comments in reference to it. This is added to corroborate the fact that Ida did know exactly who Assault was and was reasonably well versed on his actions as she even referenced Assaults alleged proclivities. It is also added to prove the fact that the user "@uhsalt", was in fact the Assault figure mentioned by both Ida and Ivory by detailing more information to give sufficient context.

Buzzfeed triggered me LESBIAN TRACER RUINS OVERWATCH �м https://goo.gl/0ZV9b7 Thumbnail by iflipsful �м ...

In a Christmas oriented video Pyrocynical had made on 27th December 2016, titled '[$3 BuzzFeed VS. $9999 BuzzFeed](https://www.youtube.com/watch?v=rNbUr_0rGWk)', Assault was shown and mentioned in the video by Pyrocynical directly.

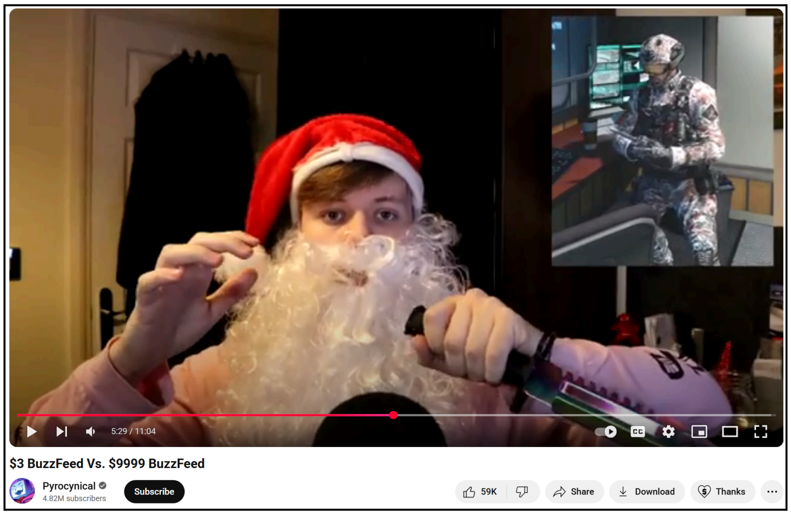
Transcript

https://www.youtube.com/watch?v=rNbUr_0rGWk **4:45 - 5:42**

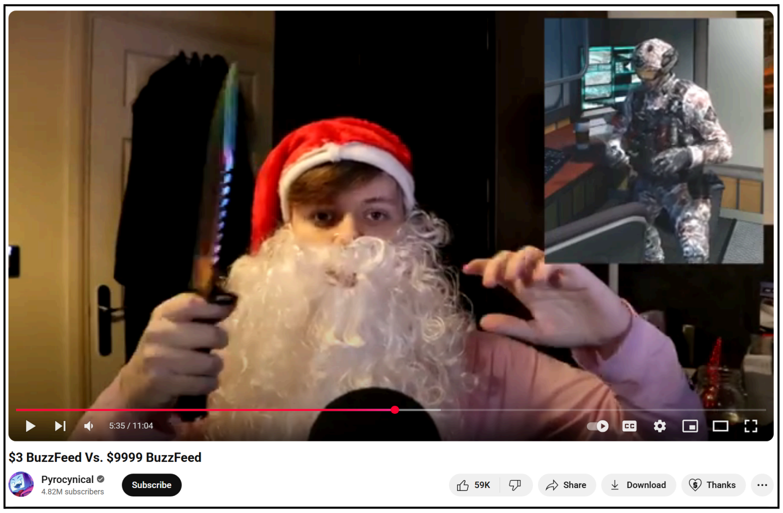
Pyrocynical; '**The end of Pyrocynical. Assault, that was quite mean of you just say. It really hit me in the heart, you know, you've affected my Christmas spirit so in return, I'm going to play about 15 seconds of your 100 subscriber special video.'**

Pyrocynical's video: **[Assault]: 'Hello everybody, Assault's here, two days ago, on March second, we hit one-hundred subscribers, (canned laughter) I don't know how much I can thank you guys, that's freaking awesome thank you guys so much .**

Pyrocyncial: **‘Where the f–k is that knife, I think I found it. Got it, I got it, sorry, I bought this knife just to take the piss out of Assault. Hello everyone, Assault here, two days ago we reached one-hundred subscribers, I don't think you guys know how much this means to me, allow me to show you respect by having a fu–ing Call of Duty: Black Ops character through a bunch of idle animations with this knife.’**



$3 BuzzFeed Vs. $9999 BuzzFeed



$3 BuzzFeed Vs. $9999 BuzzFeed

Pyrocynical is seen referencing a video Assault had on his YouTube channel, **so he was fully aware of what he sounded like**, and it is beyond any reasonable doubt that they had direct connections to one another and spoke to each other. Pyrocynical is seen referencing the fact he bought a knife in order to make fun out of Assault for playing COD in the background during his milestone video.
Pyrocynical would have only known about this specific video from a rather vague commentary orbiter if it was a regular inside joke between them and he had seen Assault’s socials platforms beforehand in order to have singled this out.

Now according to Ivory when I consulted him in late 2024, as well as other anonymous whistleblowers who contacted me, Assault, like other victims; is extremely scared and dissuaded to come out about his situation due to the harassment that Ivory received in 2020. Assault is not associated, nor does he have contact with Niall as of 2025.

In an uncovered tweet made in 2020 during the peak of the Ivory Rasmus situation, a **whistleblower** *claiming to have been well versed in the community and circles close to Pyrocynical*, using a throwaway account had come out stating that he was a witness to Pyrocynical’s behaviour at the time and was able to add more weight Ivory’s initial allegations, because he was personally in contact with another minor who also was a victim to Pyrocynical. He attests that what Pyrocynical did to Assault was exactly the same behaviour he was seen doing to Ivory.

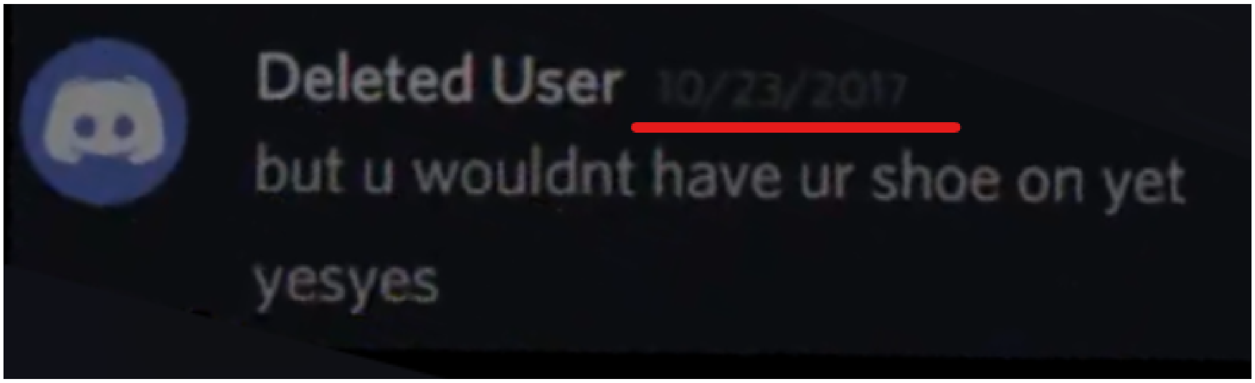
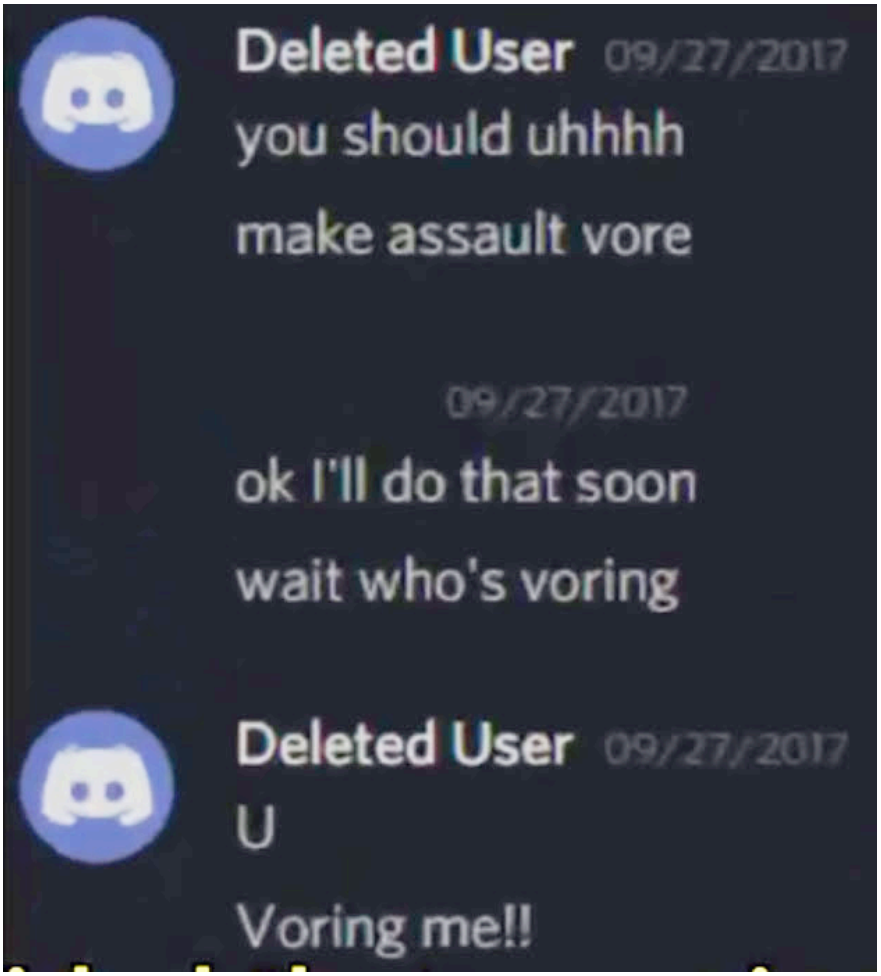
In these alleged screenshots, Assault [Deleted User] is seen requesting fetish art from an artist [censored name] on **23th October 2017**, asking that he has art drawn of him being shrunk and either hidden in their shoe while they weren't wearing any. This is then followed up by the artist stating that Assault could be 'squished under a **foot**', with Assault liking that idea and also stating that 'wants to be jumped on'. Since it was an open secret that Assault had a foot fetish, **he was clearly requesting fetishistic art** that played into his sexual fantasies which he should not have been commissioning or requesting for since **he was only 15 years old.**



Deleted User 10/23/2017
but u wouldnt have ur shoe on yet
yesyes

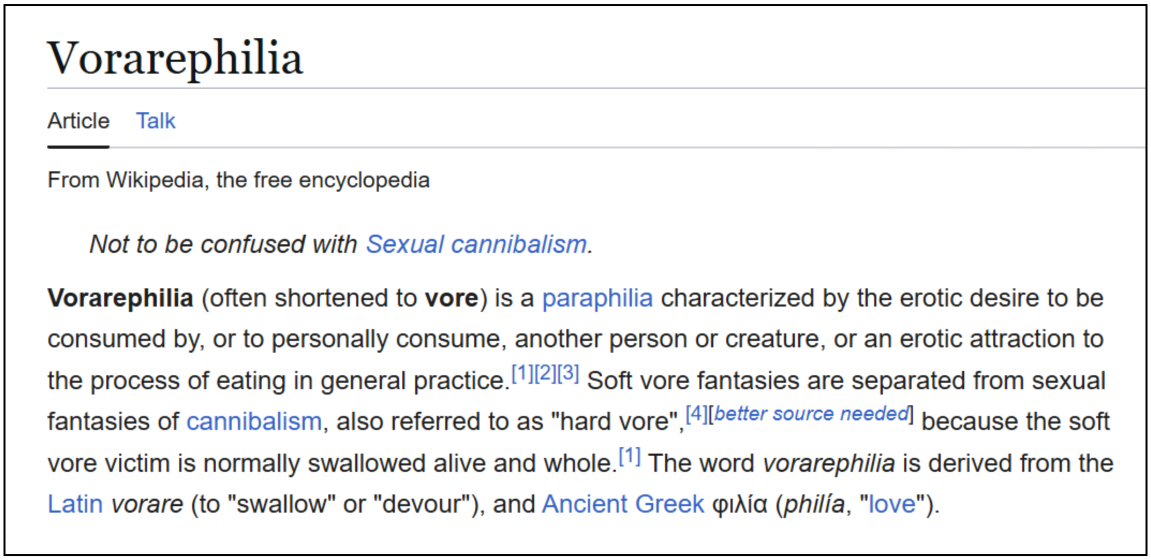


Deleted User 09/27/2017
you should uhhhh
make assault vore

09/27/2017
ok I'll do that soon
wait who's voring

Deleted User 09/27/2017
U
Voring me!!

On 27th September 2017, Assault was then seen asking this anonymous artist for ‘voring art’ of his character, when the artist replies ‘who is voring’, Assault replies with ‘you voring me’. Essentially for context to those unaware of what “voring” is, **it is a paraphilia characterized by the erotic desire to be consumed or to consume. Art regarding Vorarephilia is often fetishistic art depicting a ‘another person or creature’ consuming another,** and obviously **the art is created to elicit sexual gratification.**



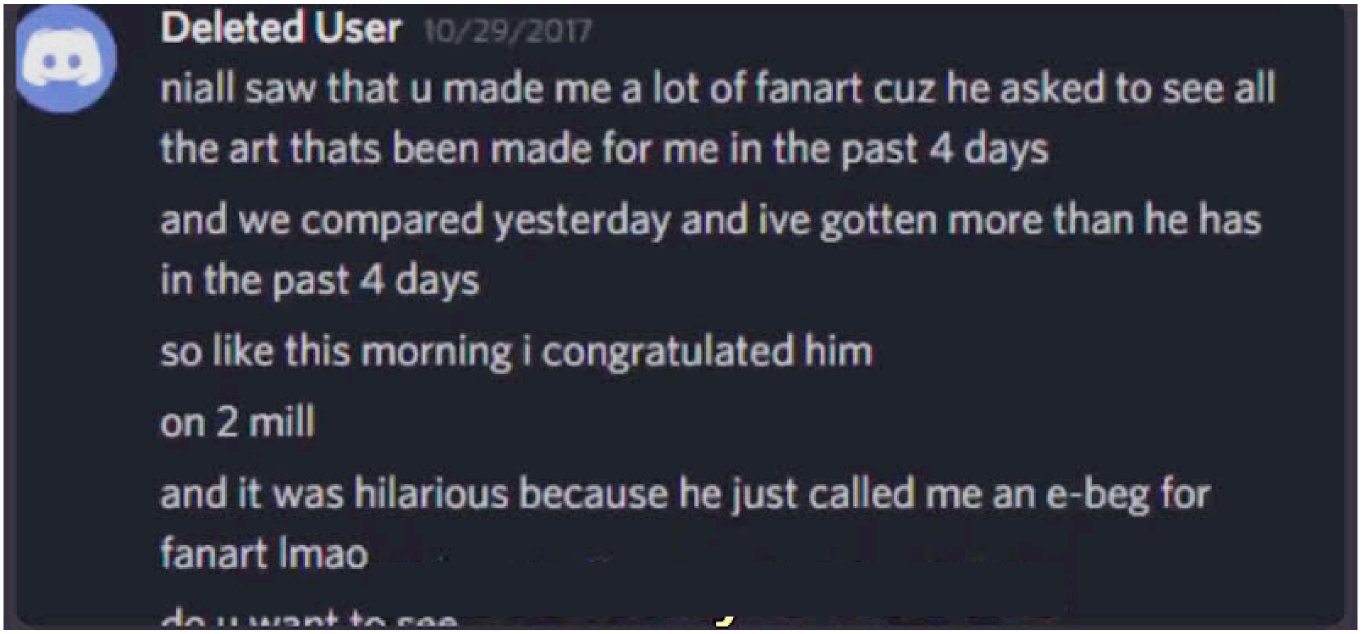
Vorarephilia

Article Talk

From Wikipedia, the free encyclopedia

Not to be confused with Sexual cannibalism.

Vorarephilia (often shortened to **vore**) is a paraphilia characterized by the erotic desire to be consumed by, or to personally consume, another person or creature, or an erotic attraction to the process of eating in general practice.[1][2][3] Soft vore fantasies are separated from sexual fantasies of cannibalism, also referred to as "hard vore",[4][*better source needed*] because the soft vore victim is normally swallowed alive and whole.[1] The word *vorarephilia* is derived from the Latin *vorare* (to "swallow" or "devour"), and Ancient Greek φιλία (*philía*, "love").



Deleted User 10/29/2017

niall saw that u made me a lot of fanart cuz he asked to see all the art thats been made for me in the past 4 days

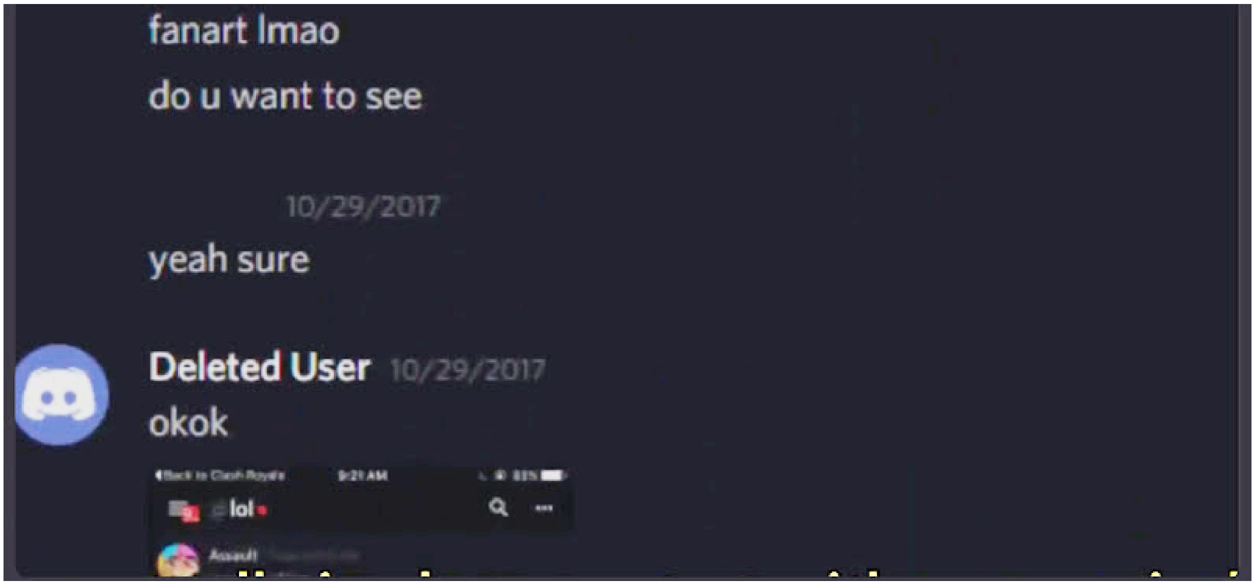
and we compared yesterday and ive gotten more than he has in the past 4 days

so like this morning i congratulated him

on 2 mill

and it was hilarious because he just called me an e-beg for fanart lmao

In these alleged messages, Assault is then seen stating on **29th October 2017** that Pyrocynical allegedly saw the NSFW fetish commissions of his character created of him when he was a minor, and then requested to see **all** the other fetish art he had in which was created in the past 4 days.
This was then followed by allegedly Assault stating that they **compared and exchanged furry fetish art** with one another, which bears direct comparisons to Niall's dynamic with Ivory, where they exchanged furry NSFW art with one another. To which is followed by Assault stating that apparently he has received more art than Niall in the past 4 days.
Assault is then seen stating that he congratulated Niall on 2 million subscribers and that Pyro called him an e-beggar for getting all the fetish art made for him.



fanart lmao

do u want to see

10/29/2017

yeah sure

Deleted User 10/29/2017

okok

This was then followed by Assault asking this censored user if they wanted to see the DMs they had with Niall, where they discussed the art.

As you can see in the DMs, it is clear that before the account was deleted, it was in most likely Assault who ran it, as **the archived screenshot clearly shows that their account was called Assault** and the account he was messaging had the discord tag **@lol** in which matched verbatim with Niall's tag in 2017, meaning there is reasonable belief that this was Pyrocynical.

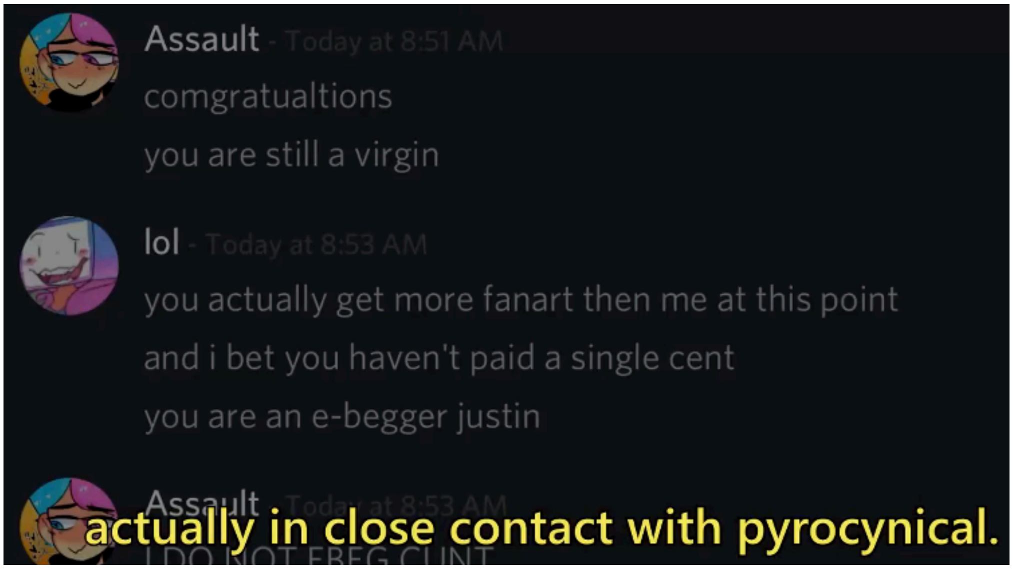
As presented by the bot logs of Pyrocynical's discord server, the original account that owned the server had the tag "@lol". Proving that Pyrocynical went by that alias and most likely ran this account.



Assault - Today at 8:51 AM

comgratualtions

you are still a virgin

lol - Today at 8:53 AM

you actually get more fanart then me at this point

and i bet you haven't paid a single cent

you are an e-begger justin

Assault - Today at 8:53 AM

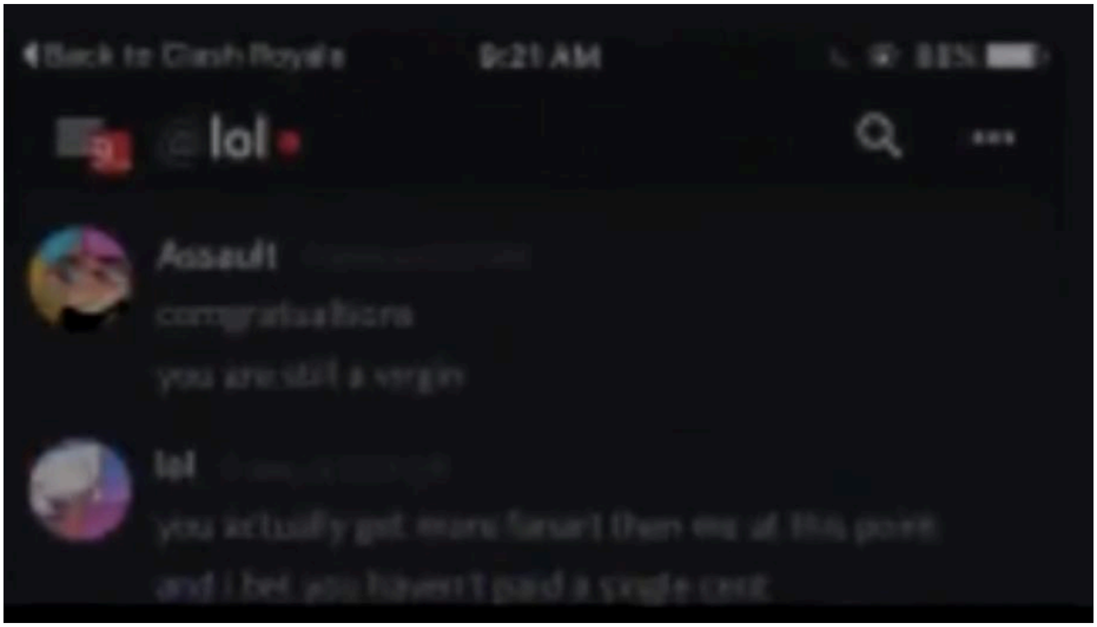
I DO NOT EBEG CUNT

In the alleged DMs shown by Assault **[ABOVE]**, you can see what is believed to be Niall's account mentioning how Assault has received more fanart than him, and that he probably hasn't paid a single cent for the images. With Assault stating that he is not an e-beggar. Pyrocynical is then seen referring to Assault by his name.

If these DMs did take place, [there are many connections as to prove that this likely happened], then it proves that Niall did engage in sharing furry fetish content with yet another minor and that he, unlike Assault, actually paid for furry fetish art as he is seen stating "and I bet you haven't paid a single cent", inferring that he is jealous with the fact that Assault allegedly received the art for free.
Pyrocynical, specifically calling the art Assault received as 'fanart', brings up numerous questions. Since Assault had specifically requested for this art however received it for free, it is more than likely that Niall refers to art created in those instances as fanart, however in reference to Ida making her NSFW art public on e621, Pyrocynical was believed to have been anxious in Ivory's DMs about it being publicly accessible, with Ivory stating that he should just lie and claim they were instances of fanart in which he didn't specifically ask for. This would mean that s**ince Pyrocynical never explicitly mentioned to Ivory that he received fanart from Ida**, being art he commissioned for free, or art made of him without his knowledge, it is more than likely that he requested and **perhaps paid Ida originally to create the furry NSFW fetish content when she was a minor**. That is an important discrepancy to highlight.

Meaning that he conflated the definition of "fanart" with commissions, as he is referring to art that Assault had specifically requested for free as 'fanart', therefore meaning he most likely paid for Ida to have created furry fetish art for him as during the time of having contact with her, she started creating many instances of furry fetish art regarding his character with Ivory telling him to play it off as just "fanart", meaning that he could use the plausible deniability card and act like he never commissioned it.
At the time of these message exchanges [October 29th 2017], it was believed to be late October 2017, **Niall would have been 20, Assault would have been 16.**

Age of consent laws cannot be attributed to this situation either in the case that obscene furry pornographic art was actually exchanged with the minor and elicited from them.



Assault
congratulations
you are still a virgin

lol
you actually get more fanart then me at this point
and I bet you haven't paid a single cent

The discord messages between Assault and allegedly Niall were taken on discord mobile meaning the messages could not have been easily tampered with especially in terms of screenshots dating back from 2020 when applications used to forge falsified evidence were far more trivial and scarce.

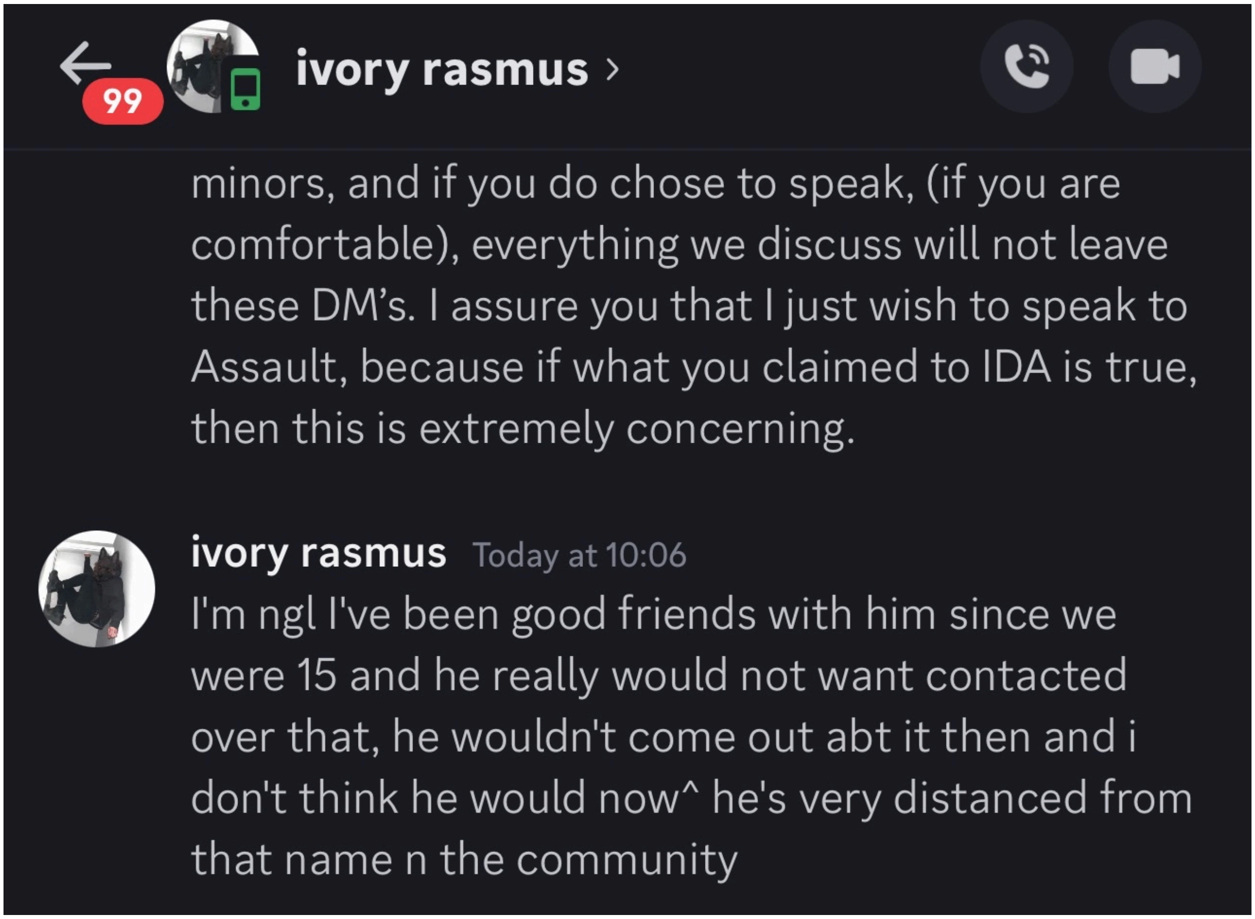
More proof is shown via discord screenshots taken by a close mutual of Pyrocynical's in 2017, named Saku [xPoutine was his old alias] showing on Twitter that Niall had the discord name "lol" at the time. This matches not only with the discord bot logs of Pyrocynical's account bearing the tag "lol#9982" which operated his discord server, but also matches with the alleged screenshot evidence of Pyrocynical messaging Assault where the account had the name "lol".

Furthermore this situation matches directly with Ivory's messages in regards to Ida, therefore corroborating the fact that this allegation provided by the unnamed whistleblower **is credible**.



minors, and if you do chose to speak, (if you are comfortable), everything we discuss will not leave these DM's. I assure you that I just wish to speak to Assault, because if what you claimed to IDA is true, then this is extremely concerning.

ivory rasmus Today at 10:06

I'm ngl I've been good friends with him since we were 15 and he really would not want contacted over that, he wouldn't come out abt it then and i don't think he would now^ he's very distanced from that name n the community

Ivory Rasmus was contacted and asked if Assault was able to be contacted about the situation. Ivory is seen confirming that he was friends with Assault when he was 15, however he would not want to be contacted about the situation as he is ‘**very distanced** from that name in the community’.

AbortionASMR - 15

Another person who had come out detailing their alleged experience with Niall, was a user named “@AbortionASMR”, who claimed that when they were 15, they engaged in sexual messages in regards to furry fetish porn when he was 19. Keep in mind, these allegations came out 11 months before Ivory’s initial call-out tweet in November 2020. This tweet was eventually removed by the original poster as she was being harassed by Pyrocynical fans who called her a clout chaser and attempted to invalidate and discredit her experiences.

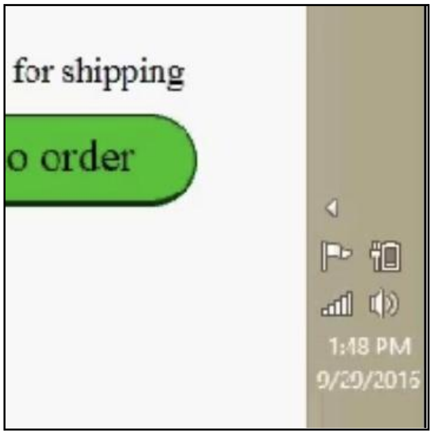
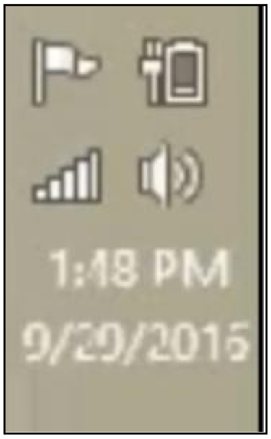
In Twitter DMs between Pyrocynical and AbortionASMR, they took place in September 2016, with Pyrocynical asking her if she had Skype where they could move their conversation to. It is abundantly obvious that Pyrocynical was testing the ground on whether they liked Furry fetish content by posting a fat furry image, to which AbortionASMR replied that it was cute and Pyrocynical immediately replied with if they liked the content and then offered to communicate via Skype, it is a repeated pattern seen playing out with numerous other minors he allegedly engaged with. If the minor expresses interest in Niall's fetishes, he then moves to engage with them fully on Skype, where he could call them and messages are often harder to obtain years later.





In these message logs, AbortionASMR is seen screen recording all the messages as of **29th September 2016**, the day the messages were sent, and a day after Pyrocynical has requested to move the conversation to Skype.
While these messages took place,
AbortionASMR was 15 years 10 months old

As seen by these messages [*not all the messages are shown as claimed by AbortionASMR*], an account in which is claimed to have been Pyrocynical, is constantly seen asking a 15 year old girl at the time what specific fetishes they are into. Pyrocynical at this time a 19 year old adult, and if these allegations are true, then was seen essentially **consistently sending furry fetish porn to this minor and engaging in inappropriate conversations with them**. This behaviour is not only seen in reference to AbortionASMR's allegations, but it was also seen when Ivory came out about his experience in late 2020 revealed almost a year later, and also many other minors whose experiences went under the radar until now. It's a repeat pattern of behaviour adopted by Niall which has been proven regardless (*on the small possibility that this specific allegation is not true*) and it's especially concerning as he seemed to not be dissuaded by large age gaps in reference to what he stated himself verbatim that once 'learning' Ivory was 16, he continued sexually messaging him regardless because he "**didn't see a 4 year age gap as significant**". If a 4 year age gap did not dissuade him in regards to the Ivory Rasmus situation, then that should build on context for these other allegations with considerably large age gaps.

AbortionASMR is seen posting an image of what they claim to be Pyrocynical's Skype profile **as of 2019** (at the time they created the initial call-out tweet). The image is highlighted in red.

The full image shows that Pyrocynical's alleged Skype tag was called "scran", with it having a Zurg profile picture. There is considerable proof to corroborate this account actually being operated by Pyrocynical.

In a tweet created by igloofella, he is seen showing proof that another alleged anonymous 12 year old victim of Niall, had him added on Skype, however the message history was wiped by Skype. In the screenshot it showed that Niall's profile was called scran with a Zurg profile picture.

The Skype account shown by the alleged 12 year old victim **matches identically** to the account AbortionASMR showed in their original 2019 call-out tweet with the same Skype tag and profile picture. The account shown in igloofella's tweet also shows that the accounts name was changed from 'abdul' to Pyro in reference to, of course; Pyrocynical, **adding significantly more credibility to AbortionASMR's allegations.**

Images presented in the logs were specifically not embedded exempt for one.

[LEFT] As we have proven, the deleted account user who messaged Ivory was in fact Niall [Pyrocynical]. **[RIGHT]** As you can see in the messages between allegedly Pyrocynical and AbortionASMR on Skype, Pyrocynical is seen sending an image of a furry resting on a fat furry with fart clouds surrounding it [assumed to be Pyrocynical's sona] with buttocks visible, this was sent on September 29th 2016. This exact same commissioned image was then sent to Ivory on 3rd February 2017. Deleted User [Pyrocynical] is even seen asking Ivory "you know that's the artist who did me thic ye?"

As seen in the logs, Pyrocynical is seen establishing the fact that the Furry NSFW fetish image that he sent Ivory and AbortionASMR, was originally commissioned from an artist named “Fatty Meat!”

The addition of the furry fetish image that allegedly Pyrocynical posted to AbortionASMR, strengthens the credibility of her story greatly; as she forwarded these allegations publicly in December 2019, 11 months before Ivory ever did, either she faked these messages and there would have had to be the biggest coincidence ever that this account just somehow knew that Pyrocynical commissioned this exact image from ‘Fatty Meat!’ and that the deleted user account which was **proven to be Pyrocynical** was seen 3 months later reposting the exact same image to another minor [Ivory], which would be statistically **improbable**, or this account was indeed Pyrocynical as the account she was messaging on Twitter had the exact same Twitter name “Sheriff”, as the actual Pyrocynical account did in the exact same time period.

Now in reference to the Skype account profile that allegedly Pyrocynical had at the time of these messages being filed; 29th November 2016, you can see the name of his being “sherif” which matches the name of his Twitter account at the time, additionally you can see that the account has a **pizza profile picture** which may throw people off at first. However by cross referencing tweets made in early December 2016, only a couple of days later, and you can see a tweet made by a user on 1st December 2016, showing their Skype DMs with SolidShibe, Pyrocynical’s close associate; https://x.com/jonasfullbobafe/status/804272524796248064?s=46

This message is also concerning due to the fact that SolidShibe was a minor at this time, and SiveMorten was 21, making a joke comment about wanting to have sexual intercourse with him.

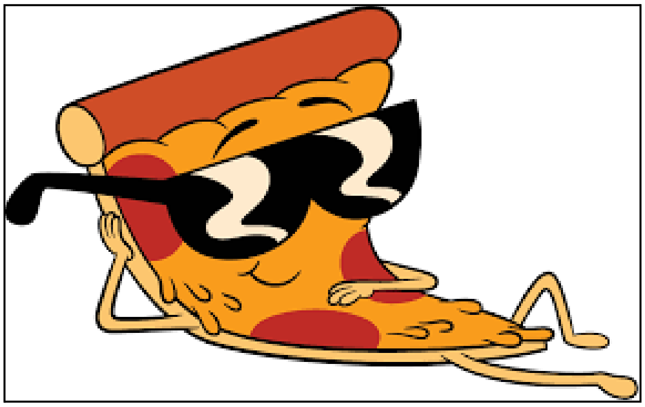
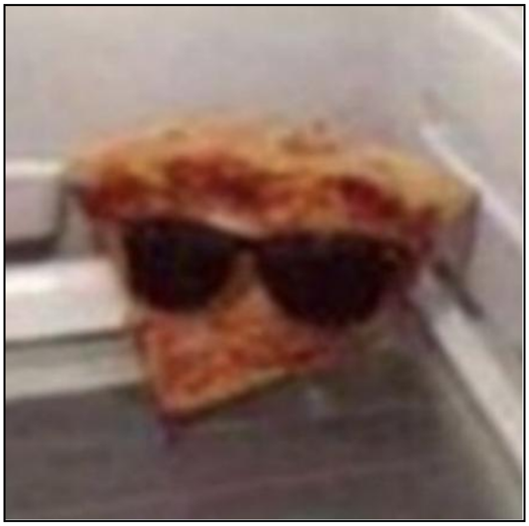
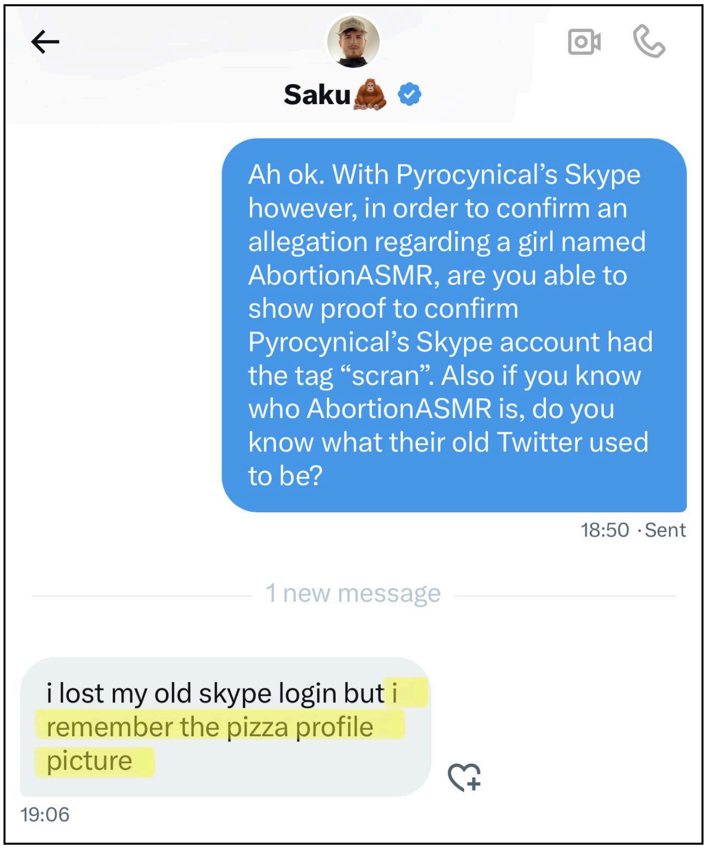
Both Pyrocynical [**September 19th 2016**] and ColossalIsCrazy [**October 8th 2016**] had now deleted tweets on the pizza meme, to which many people joked that it looked like “Pizza Steve”, in reference to the animated character from the show Uncle Grandpa in which was a slice of pizza with shades, directly reminiscent of the profile picture that the account which is claimed to be Pyrocynical's Skype account had at around the **exact same time period these tweets were sent.**





This segment adds credibility to AbortionASMR's allegation as not only did Pyrocynical have the name "Sheriff" on Twitter at the time and have the exact same profile picture, but he also sent the exact same furry fetish art he commissioned from an artist, to Ivory only 3 months after sending it to her. With the Skype messages too, it doesn't seem illogical to assume that Pyrocynical just used SolidShibe's Pizza meme profile picture for his Skype account as they were very evidently, extremely close friends and associates at the time. He had tweeted a meme referencing the image on 19th September, being 10 days before his alleged Skype logs were recorded by the victim, showing his apparent profile picture to have the pizza image.



Saku🦧

Ah ok. With Pyrocynical's Skype however, in order to confirm an allegation regarding a girl named AbortionASMR, are you able to show proof to confirm Pyrocynical's Skype account had the tag "scran". Also if you know who AbortionASMR is, do you know what their old Twitter used to be?

Can't believe a manlet **pedophiled** on me by sending me obese farting furry porn. Rock bottom has a basement x.com/GoodReddit/sta...

This post is unavailable.

AbortionASMR was seen on their active account; “@fertilebigfoot”, stating in a tweet made in 2022 that Pyrocynical had allegedly sent them furry pornography and that he “sexted” her when she was 15, posting furry fart pornography and even “assigned” her a furry fetish sona. This proves that AbortionASMR has **remained consistent with her claims over the course of numerous years, her claim being that Niall sent her furry pornography and discussed fetishes with her when she was a minor.**

https://x.com/fertilebigfoot/status/1549815804677574657?s=46

https://x.com/fertilebigfoot/status/1531659063276208128?s=46

Now in reference to the Twitter account which AbortionASMR operated when she was originally contacted by Niall, that remains unknown. AbortionASMR has always affirmed that they were constantly suspended on Twitter, so for now it’s impossible to retrieve the account she operated and examine archived screenshots of her bio, however every account she operated on her 2019-2020 account and current one, shows that she always had her date of birth present in her bio. So in reference to the AbortionASMR situation, **it is currently unknown if Pyrocynical knew her age**, however in many other cases highlighted in this document, Niall either asked their age and / or was directly informed, and in other cases it was extremely implausible for him to have not known. Best case scenario for Pyrocynical in this case, was that he engaged in sending pornography and discussed fetish based topics with a minor who he did not verify the age of, ***however he had verified the age of numerous others minors before and has been shown to continue acting inappropriately regardless***, that should be succinctly clarified.

In the case of AbortionASMR, it was originally believed by the majority of people that the accounts she was messaging were not Pyrocynical because the name of the accounts used did not match up with Pyrocynical's at the time, current accounts and no one remembered the old aliases Niall had used back in 2016, however as proven with Twitter archived screenshots from 2016 and matching behavioural patterns with Niall sending the same instance of furry fetish imagery to other people and also by comparing the Skype tag [which she screenshotted in 2019] with other alleged victims [which was screenshotted in 2024], this allegation is **extremely credible** as Pyrocynical's Skype account was very secretive and these accounts matched proving their authenticity. The only last piece to finish the puzzle was the name of the account she operated, from that we are able to determine how close she was to Pyrocynical and if she had her age present in the bio similar to her other accounts which is unknown as of currently.

This allegation **is not** defined by AbortionASMR not making her age known, it's defined by what her suspended account was and if her age was present in her bio like her other accounts. There is no current evidence that AbortionASMR ever lied about her age or withheld it. Her age being known is inconclusive for now.

Mewibos / Leo - 14

While not as much proof is openly available as the aforementioned situations, the case of Mewibos is rather **concerning**. This segment will touch on the **allegations** that Pyrocynical allegedly commissioned a 14 year old boy to create fetishistic and pornographic content in private for him. This was attested by numerous people well versed in the community at the time all in different instances which make the matter rather important to highlight, however, take these *allegations* in a **level headed manner.** What is being alleged are from numerous **witness testimonies.**

Saku🦧

i don't really consider myself to be one of the victims because basically every time he'd send me furry fart porn or make a weird joke about how he thinks i have a piss fetish i'd very bluntly tell him he was disgusting and vile and after like the 5th time of that he stopped messaging me for the most part. i was friends with ivory and i think there's probably a few other victims you guys don't have there but out of respect for them i don't wanna involve them unless they choose to do so themselves. the only bit of info i think is fine to share since it was pretty much public knowledge is that he had a 13 year old girl named Mewibos drawing a lot of his furry porn art (she doesn't seem to be around anymore) and he said before on his podcast that the act of having someone draw it for him is part of his fetish

[LEFT] A Twitter user named Naomi is seen attesting that they personally avoid Pyrocynical due to the fact that in private, Pyrocynical allegedly had Leo / Mewibos create "poopy fart vore" of his fursona. Essentially alleging that Pyrocynical commissioned multiple instances of furry fetish pornography from a minor significantly younger than himself.

[RIGHT] Saku was even seen allegeding that Pyrocynical got Mewibos to draw a lot of furry pornography for him in private.

Keep in mind Saku was **well versed** in the community at the time and was friends with many users who were openly taken advantage of by Niall, there is no incentive for him to lie, especially when he has shown discord message proof that Niall was sharing fetish content to him while he was a minor. Furthermore Saku was not the only person who had alleged Niall to have inappropriately engaged with Mewibos in private, that should be taken into consideration.

It is especially important to establish the fact that Mewibos was a minor creating suggestive and pornographic art for public consumption, and yet nonetheless Pyrocynical is seen openly commissioning her for art of his character and featuring it inside his videos. He wasn't dissuaded by any possible ramifications that came out of engaging with a minor who created NSFW art. Morally it is questionable for a 19 year old adult to be getting art from and publicly following an alleged 14 year old girl who creates pornographic art publicly. This is **provable** with evidence still being publicly accessible to this day, such as archived screenshots of Niall engaging with her Twitter account as well as him featuring her art in YouTube videos.

Now in order to prove Mewibos' date of birth and the age gap between Leo and Niall, we have to refer to a separate situation.
Mewibos had come out in 2019, claiming that in 2017, when they were **15**, the YouTuber **Shadical** had behaved inappropriately to them and **asked for feet pictures** while he was **18**.

Shadical on 23rd March 2023, then made a [response video](#) clarifying and going over the entire situation including showing the chat logs.

Shadical is seen stating that they **never knew of Mewibos age** and that **he believed Mewibos was considerably older than they were** because of the art that they created. He also stated that Mewibos **never made their age present in their bio** and that **he never realised that they were a guy, not a girl.**

In a tweet provided by igloofella, he shows a discord message of a friend of an alleged anonymous victim with them attesting that they were in an old Skype group chat with Pyrocynical and their other mutual friends and that they saw their friend who was **14**, be constantly asked to draw nude and NSFW fetish art for Pyrocynical. The name provided ends with an ‘s’ and **matches identically to “mewibos”. Mewibos was also 14, the ages match.**

In November 2016, a user named ‘catwiththemac0’, made a tweet showing private Twitter messages with Pyrocynical in 2015, showing how allegedly Pyrocynical had sent them furry pornography of Foxy and Chica from FNAF, with Foxy sitting on Chica’s face. Even allegedly Pyrocynical acknowledges in these message exchanges that it is **inherently sexual** by referencing the image as a ‘Foxy ass’ image.

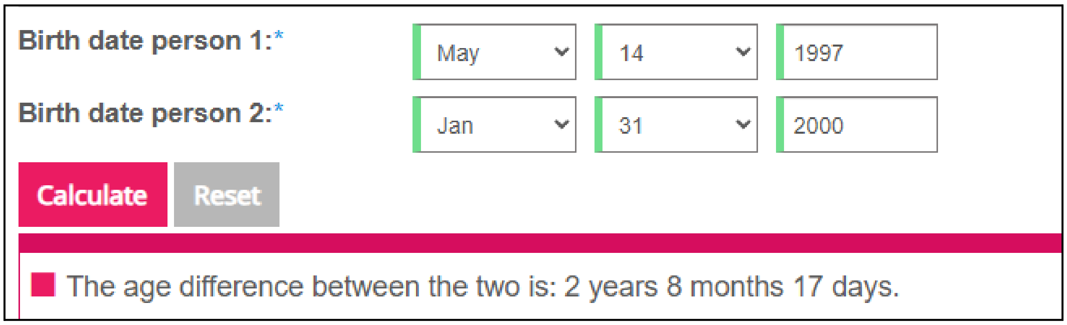
It is evident that Turk was open about their age publicly on Twitter, as they established they were 15 as of October 2015. Judging by these two tweets it is easy to decipher the fact that Turk was born on January 31st 2000.
Meaning that the age gap between Turk and Pyrocynical would have been **2 years 8 months.**



Birth date person 1:*	May	14	1997
Birth date person 2:*	Jan	31	2000

The age difference between the two is: 2 years 8 months 17 days.

While the alleged age gap between Pyrocynical and Turk is not significant as representative of the other cases, it builds a larger picture that Pyrocynical was willing to openly post NSFW content to anyone regardless of their age, furthermore specifically in Turk's case, he made his age present on Twitter on October 21st 2015.

As seen in Twitter private messages with Pyrocynical, Niall had sent them pornographic content in late December.

Pyrocynical would have been [18 years 7 months old](), Turk would have been [15 years 10 months old]().

Turk had tweeted out a screenshot on 30th June 2015, where it showed that the **actual Pyrocynical had followed them on Twitter**, adding credibility to their initial allegation.
Turk was also seen **consistently communicating with Pyrocynical's old account on Twitter**, therefore adding further credibility to their claim. Furthermore, their initial tweet, displaying the private twitter messages they had with Pyrocynical, where he is seen posting NSFW to them, was originally made in November 2016, 4 years before the Ivory Rasmus callout post. There was no incentive for them to have even fabricated these message logs regardless. Additionally, the idea that Pyrocynical did not know the age of this person is drawn into question, as they were never secretive about their age whatsoever, nor their date of birth. Pyrocynical unlike with the Ivory situation, **does not have an alibi that he 'was not on Twitter so therefore could not see the tweets of them disclosing their age'** as Turk made it known that his birthday was on January 31st, in a tweet he made in early 2015, 10 months before his private Twitter messages to Pyrocynical. Ultimately regardless, it was proven that he was on Twitter during the time period he claims he was not and he was even accessing Ivory's newest tweets. **Therefore proving his alibi to be completely incorrect and a lie in the first place**.

Turk was also seen making the tweet establishing that he was 15, close to 4 months **after** Pyrocynical had followed them, with them also having made it known that they were in school numerous times before Pyrocynical directly messaged them privately on Twitter.
Turk is seen almost 7 years after their original 2016 tweet, talking about how Pyrocynical had sent them 'fat furry porn', when they were 16, however they liked his content, so they chose not to care; türkjew warrior on X: "pyrocynical sent me fat furry porn when I was 16 but I like him so idc lol" / X

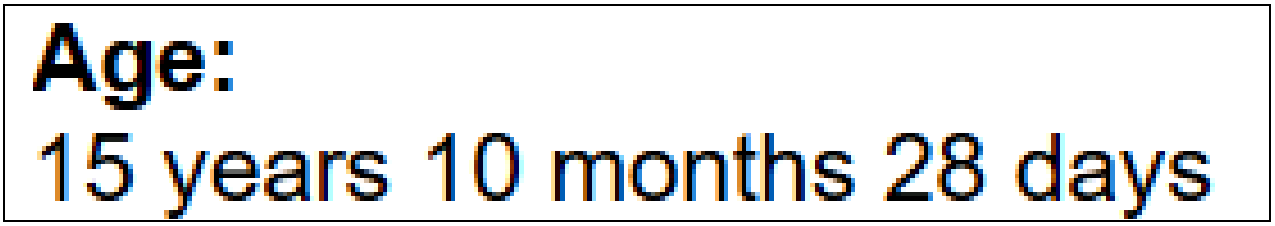
However, as established before, Pyrocynical sent them the content in late December 2016, while he was 18. This effectively meant Turk was 15 when they received the content as their date of birth was 31st January 2000. Furthermore when they had stated that they were 16, this could have been due to them rounding their age, however it could also be insinuated that more



Age:

15 years 10 months 28 days

instances followed since their exchange in late 2015, and it could have continued while they were 16.

Regardless, it was illegal for Pyrocynical to have sent furry NSFW content to a 15 year old, while he was 18. Age of consent laws to not cover for someone sending NSFW content to minors.

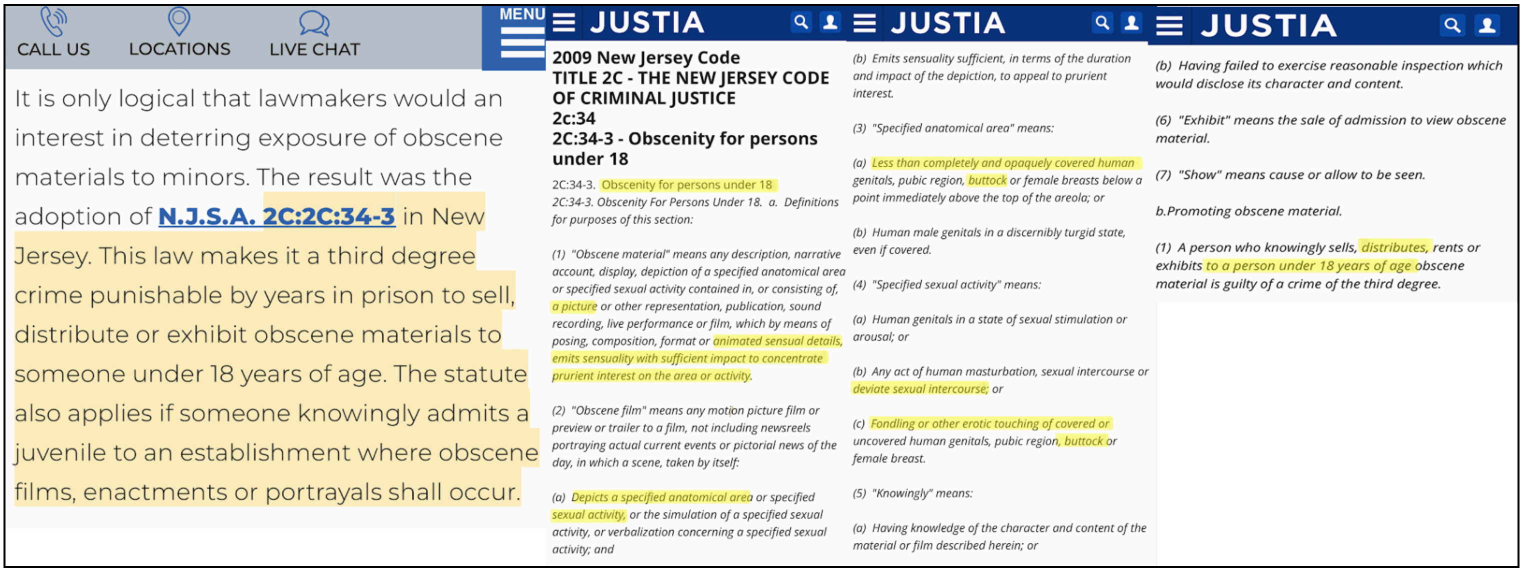
Turk is from New Jersey where it is established that it is illegal for an adult to distribute and share obscene pornographic content to a minor. This would effectively mean once again the excuse that the “age of consent in New Jersey is 16”, to be completely irrelevant because it is illegal to send a minor obscene pornographic content regardless of if they are 16 or 17. Anything under the age of 18 is a minor under US Federal Law.

The image Pyrocynical had sent would fall under (4c) **‘Fondling or other erotic touching** of covered human genitals, public region, **buttock** or female breast.”

The law covers the illegality of the adult “**knowingly distributing**” obscene content to a “**person under 18**”, to which Niall is seen evidently doing.



It is only logical that lawmakers would an interest in deterring exposure of obscene materials to minors. The result was the adoption of **N.J.S.A. 2C:2C:34-3** in New Jersey. This law makes it a third degree crime punishable by years in prison to sell, distribute or exhibit obscene materials to someone under 18 years of age. The statute also applies if someone knowingly admits a juvenile to an establishment where obscene films, enactments or portrayals shall occur.

2009 New Jersey Code
TITLE 2C - THE NEW JERSEY CODE OF CRIMINAL JUSTICE
2c:34
2C:34-3 - Obscenity for persons under 18

(2) "Obscene film" means any motion picture film or preview or trailer to a film, not including newsreels portraying actual current events or pictorial news of the day, in which a scene, taken by itself:

(a) Depicts a specified anatomical area or specified sexual activity, or the simulation of a specified sexual activity, or verbalization concerning a specified sexual activity; and

(b) Emits sensuality sufficient, in terms of the duration and impact of the depiction, to appeal to prurient interest.

(b) Human male genitals in a discernibly turgid state, even if covered.

(4) "Specified sexual activity" means:

(a) Human genitals in a state of sexual stimulation or arousal; or

(b) Any act of human masturbation, sexual intercourse or deviate sexual intercourse; or

(c) Fondling or other erotic touching of covered or uncovered human genitals, pubic region, buttock or female breast.

(5) "Knowingly" means:

(a) Having knowledge of the character and content of the material or film described herein; or

(b) Having failed to exercise reasonable inspection which would disclose its character and content.

(6) "Exhibit" means the sale of admission to view obscene material.

As seen in these alleged Twitter messages between TrippyFox and Pyrocynical, Niall is seen to have sent NSFW furry fetish content of 2 furries engaging in explicit acts. Trippy is seen stating ‘this can be us’, to which Pyrocynical allegedly replied, ‘which one would u be tho’, to which Trippy is seen stating that Pyro should be the one on the left.
What is believed to be Pyrocynical is seen stating ‘AAAAAAAAAA’, in reply to Trippy making sexually suggestive comments towards him, clearly showing how Pyrocynical allegedly, actively engaged in such discussions and was complicit in them.
Pyrocynical is then seen allegedly telling Trippy to go on Skype, and then to delete the DM, this is perhaps to remove incriminating messages and cover his tracks.

TrippyFox affirms that he has the evidence on hand, and claims that Pyrocynical was not properly outed so therefore Pyrocynical, or anyone else for that matter, has no incentive to ever want to change that behaviour. https://archive.is/wip/ZZF2A - happy birthday to myself
As established, the age gap was 2 years 11 months 7 days, so effectively 3 years.
TrippyFox established on 27th June 2017, that he was 17. Meaning his date of birth was on April 21st 2000, making him 1 year older than Ivory Rasmus.
It has been detailed that Pyrocynical and TrippyFox were indeed close associates, and there is no incentive whatsoever for TrippyFox to have forged messages against Pyrocynical when taking into consideration how much Ivory was harassed merely because he didn't cohesively make a document going over his DMs which would have made his side of the story much easier to digest.
The case of Pyrocynical sending furry fetish porn to a TrippyFox when he was a minor, is just one of many cases of Pyrocynical abusing his power and influence as an adult to engage sexually with underaged fans of his and continue to get away with it.

Pyrocynical is also seen having directly referenced TrippyFox on Twitter on **March 24th 2016.**

Spoopyscaryaliens - 15

This allegation has been proven to be true, Pyrocynical **admitted** that he engaged with this minor in his Response video.

For context in **2016**, an artist on Instagram known as SpoopyScaryAliens, aka Ronnie, made fanart for large YouTubers at the time such as LeafyIsHere, JackSepticEye and Markiplier. They also made many art pieces for Pyrocynical. They openly made it no secret that they were **underaged** and **went to school.**

One particular instance of art they made for Pyrocynical was a body pillow image they had made of Niall's Fox character.
This was then subsequently followed by Niall contacting them in private Twitter messages asking for why they had made their profile picture the image, stating that it wasn't even "thicc".

This was followed by Pyrocynical complimenting their art 4 minutes later and then asking how old they are, to which they reply 15, to which Niall acknowledges.
So it is incredibly hard to understand how Niall in all the other instances of him acting inappropriately around minors, simply did not know their age if he had requested the age of Ronnie during these message exchanges in 2016.
Furthermore her age being 15, did not dissuade him from requesting furry fetish art from her regardless.

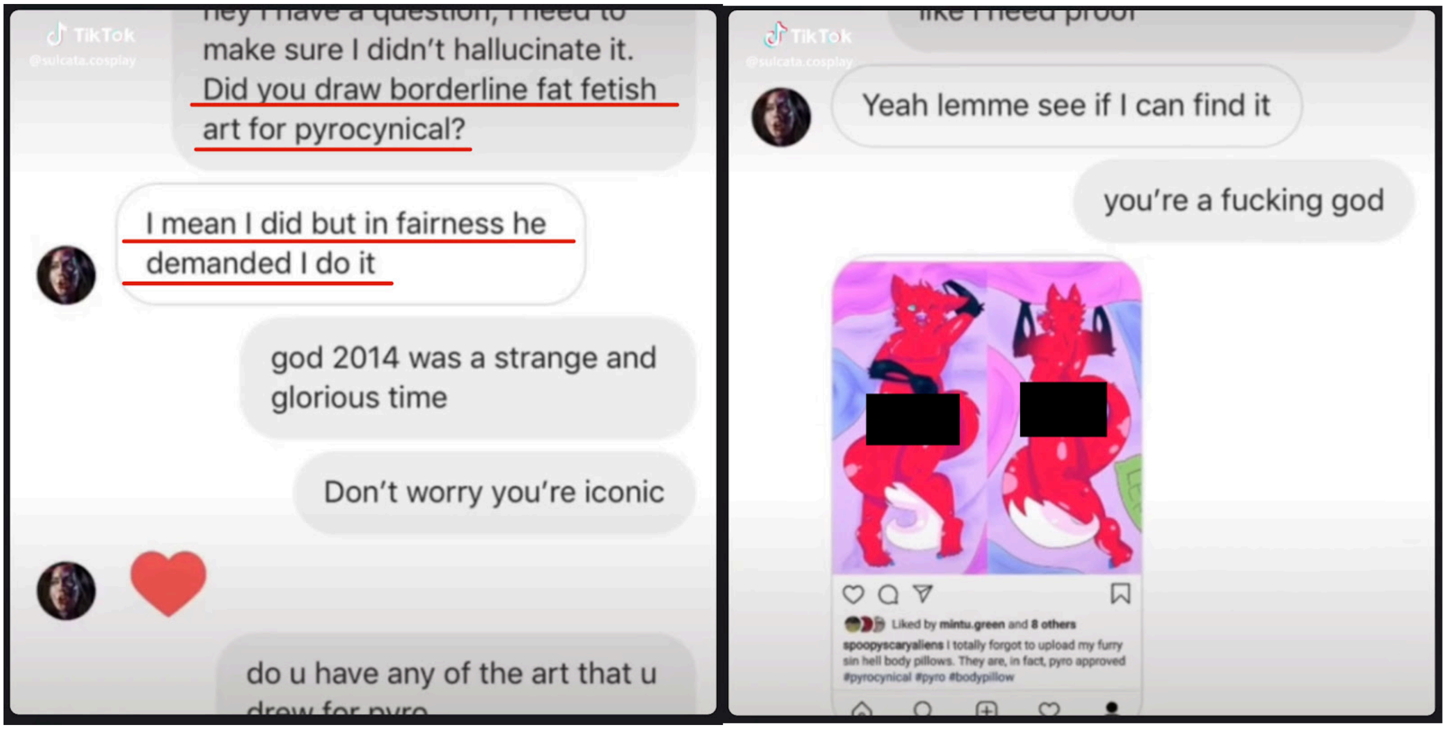
This was highlighted on May 9th 2019, when Ronnie under the Sulkaeda alias made a TikTok; https://www.tiktok.com/@sulkaeda/video/6689143919340424454

Highlighting her interaction with Pyrocynical and showing a plethora of messages of Pyrocynical having encouraged her to create fetish content of his character and knowing that she was **15**. They were the first time the messages were shown, and this remains the first allegation made against Pyrocynical, as it was made **7 months** before AbortionASMR's call-out tweet on Niall, and **1.5 years before Ivory's call-out tweet.**



hey I have a question, I need to make sure I didn't hallucinate it. Did you draw borderline fat fetish art for pyrocynical?

I mean I did but in fairness he demanded I do it

god 2014 was a strange and glorious time

Don't worry you're iconic

❤

spoopyscaryaliens I totally forgot to upload my furry sin hell body pillows. They are, in fact, pyro approved #pyrocynical #pyro #bodypillow

As detailed in the message exchanges, Ronnie is seen communicating with an unknown person that Pyrocynical "demanded" that they create "thicc" furry fetish content of his character, despite knowing that they were 15.

Now when Pyrocynical addressed this situation in his Response video, he does his best to **downplay** the situation and claimed that the images were **not pornographic**, despite them not only being *inherently fetishistic* showing thicker proportions, but also regarding the fact that his character is clearly seen having a **penis bulge** and **larger defined buttocks laying on bedsheets.** This art piece was clearly made to elicit a sexual reaction because it was created to conform to Niall's sexual fetishism and the art was intended for erotic purposes. To argue that the creation of this artwork was not to play into Niall's sexual fantasy is simply untrue.

https://www.youtube.com/watch?v=1C0SckVqH2g **20:26 - 20:48**

Pyrocynical; '**I asked them for a thicc version and they drew this [shows the image], which isn't even really that different from previous things they drew before even getting into contact with me. I didn't commission it, what was drawn wasn't pornographic, they'd**

drawn very similar stuff before and there was no role-play here it was nothing and the thing is this wasn't even a call-out post the person that made the original video just that it was funny’

‘**That being said it was incredibly irresponsible of me and not my best look I admit but this isn't at all comparable to the current situation [in reference to Ivory].**’

Pyrocynical despite attempting to feign the idea that he is taking accountability, takes subtle steps to try and downplay the situation, first he claims he did not commission the image, but his specification of this **doesn’t change the fundamental problem of the situation at all**. According to the same girl, and from archived DM’s present, he ‘**demanded**’ and pushed the girl to create the ‘thicc’ furry fetish content. Pyrocynical also attempts to shift the topic onto the other examples of art that the minor had created trying to **downplay** his specific artwork in terms of how suggestive it was. Some art created by the minor focused on guro [gore], and others were objectively NSFW, however this only serves to deflect the subject away from what Niall did, just because the minor created suggestive and sometimes pornographic content, does not now give Niall the greenlight to push the minor to create fetish content for him. The defense that this was not comparable to the Ivory situation as there were no examples of ERP [erotic roleplay] present is correct, but is extremely important to highlight this situation nonetheless, because it is a **distinct example of Niall knowing the age of a minor, and continue to engage with them inappropriately regardless**. It is important to highlight because it presents a **concerning pattern of his behaviour.**

Niall got a **15 year old girl to create fetish content for him** when **he was 19** [August 16th 2016], played it down in his response video, and many people forgot about it. Ronnie is even seen in their instagram post where they posted the image, stating it was ‘**Pyro approved**’.

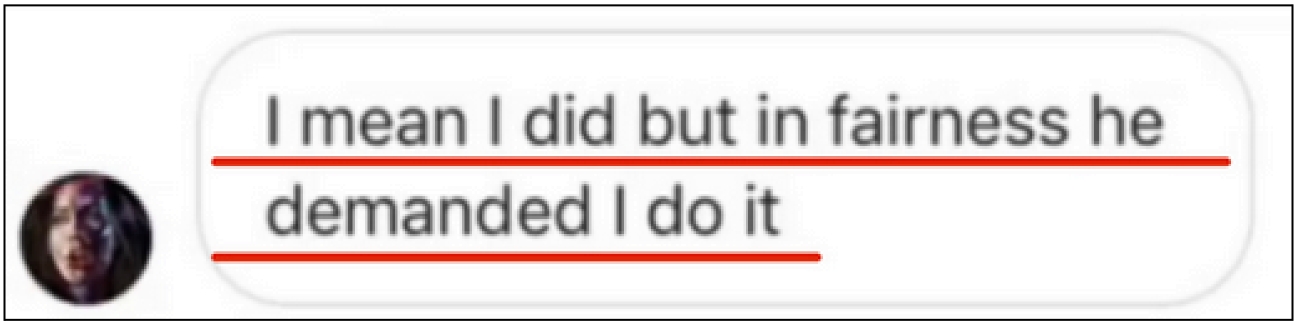
Ronnie was seen making a post highlighting how Pyrocynical liked their art. Pyrocynical **abused his power dynamic** as a content creator to **engage with impressionable fans** who created fanart for him, and **pushed them into engaging with his fetishistic fantasies** by creating suggestive fetish based content for him.

Niall, as an adult, knew she was 15 and continued to engage with her regardless **instead of cutting contact**. How this was not a red flag which people should have picked up on is extremely concerning in itself.

Keep in mind specifically for the Ivory situation, his entire alibi that he didn't know the age was based on a lie, and there is a lot more evidence to prove he most likely knew Ivory was a minor far before he made it known he was 16 in July 2017.



I mean I did but in fairness he demanded I do it

The fact that the girl attested that she was effectively "**demanded**" by Niall to create this content is something that many people didn't touch upon either.

This was **not** the only minor who allegedly was consulted by Niall to create furry fetish content as Pink was another victim.

This user was known to have created guro [gore] NSFW artwork when they were a minor to cope with trauma and suicidality. Them creating NSFW artwork however, does not make it morally acceptable for Pyrocynical to have encouraged this 15 year old girl to create furry fetish pornographic content of his character, while he was an adult.

As evident in these tweets, Ken was very open about their age on their Twitter account during 2016 & 2017. Even if we were to play *Devil's Advocate* and use Pyrocynical's **plausible deniability alibi** that he was suspended on Twitter so therefore he wasn't on Twitter from late December 2016 to late June 2017 ***[which later turned out to be false regardless]***, he was still seen messaging furry fetish content to Ken on the day he was suspended, which took place 2-3 days after Ken's other tweets in reference to them being 16, which they had publicly tweeted.

Ken was also seen creating art for Squizxy, who was Niall's at the time girlfriend, one can insinuate that they had contact with one another when Ken is seen in a tweet stating "hey sorry this looks bad but here's your art", implying that they have communicated about this beforehand.

The problem regarding the victims

Many victims of Pyrocynical are afraid to come out about the abuse they have faced **due to a plethora of reasons**; mainly the fact that Niall's fanbase have **brutally harassed, lied and defamed Ivory** after his initial allegations, **victim blaming him and discrediting his story**, which has dissuaded many other minors coming out about their own situation.

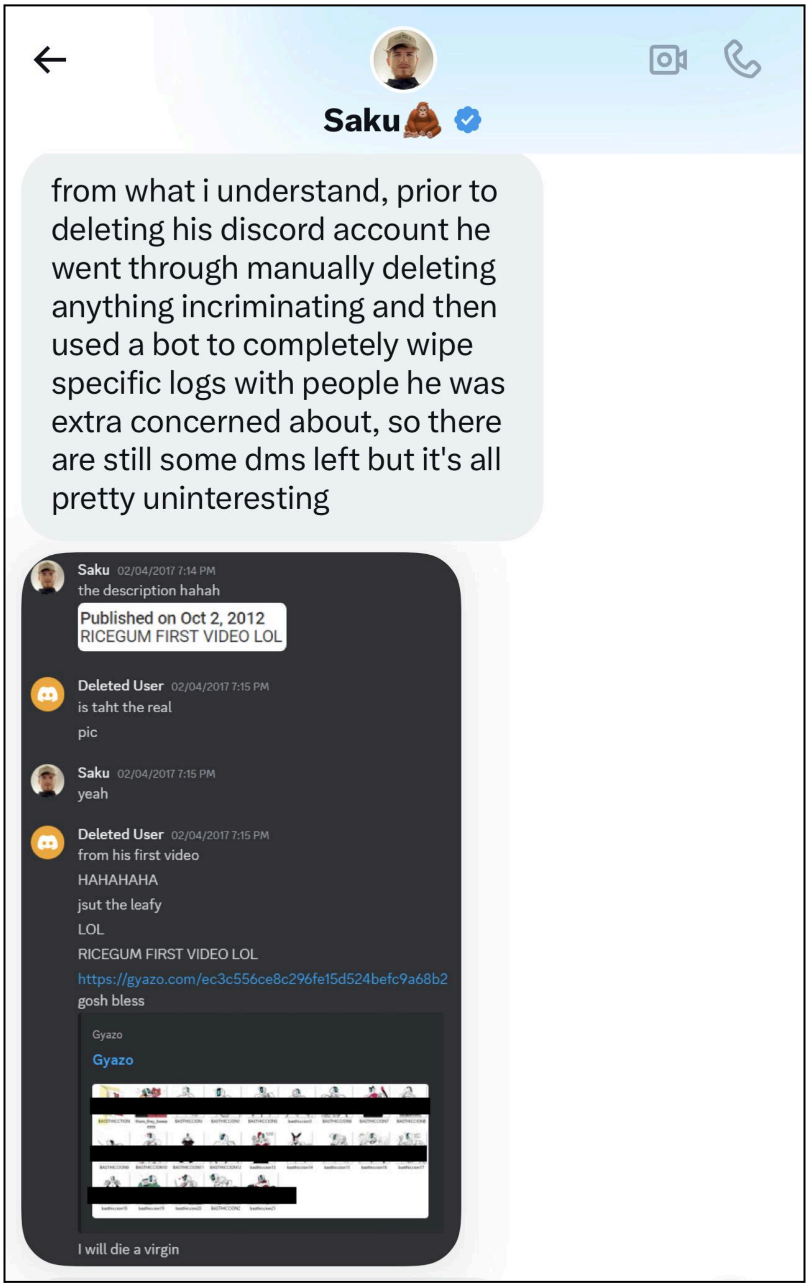
Some affected simply **left the internet** and continued on with life, putting their experiences with Niall behind them, in the case of TrippyFox.

Others lost a lot of evidence to time, as there was a golden rule against leaking private and personal DMs; the action of doing so was often frowned upon. Additionally due to **Skype having wiped old messages**, it is oftentimes very hard to retrieve old messages, especially on

Discord too if their accounts have been banned, this is also further complicated by Niall having decided to use **Discord message purging scripts to mass wipe his sexual messages with numerous individuals too**, one such example being with Ivory Rasmus.



Saku

from what i understand, prior to deleting his discord account he went through manually deleting anything incriminating and then used a bot to completely wipe specific logs with people he was extra concerned about, so there are still some dms left but it's all pretty uninteresting

yeah man wish i could give you more but pyro is genuinely very lucky, i asked one of the guys who did a bunch of rp stuff with him if he could get his old skype logs but we found out skype doesn't keep logs prior to some time in 2017 unless you have them saved on the same device and like late 2016 is when everyone switched to discord

This was also something attested by **Saku**, who was **15 years old** when Pyrocynical allegedly sent furry fetish pornography to, while he was **19**. However, according to Saku, Pyro systematically purged evidence that incriminated himself out of guilt. Saku also attests that he spoke to another user that Niall ERP'd with and the **message history has been wiped as Skype cleared older messages.**

yh someone tried to cancel pyro like a year ago or two and that also involved fart stuff + a friend of mine told me how pyro tried to comm them for fart stuff but just ghosted randomly and cleared all chat logs

Popular Twitter furry Leo “@leosleepy”, references a user named AbortionASMR who came out allegeding that Pyrocynical sent furry NSFW to them and discussed fetishes with them while they were **15** and he was **19**, this call-out was made in December 2019. Leo is then seen stating that **a friend of theirs** had told them that Pyrocynical allegedly tried to commission them to make furry NSFW fetish art for them but was ignored **causing Niall to allegedly clear all chat logs**. The idea of Niall clearing chat logs is something seen in many similar situations. The alleged victim, colour coded white, is seen stating that; ‘Pyro **deleted his discord** so it’s even harder to find his chat’. Proving once again how difficult it is for victims to provide receipts.

@igloofella

someone in my messages shared their experiences with pyro as well, they were young as fucking 12 drawing fetish art for pyro.

basically when i was like 12, i was in a skype group with him and a few other artists, this was back in like 2016 i believe

5:47 PM

he would go into my DMs and ask me to “draw fat”, and ask again if i ever tried to talk to him

i thought it was a joke so i drew him as like, a nondescript blob not knowing it was a sexual thing

5:49 PM

i’ve been wanting to come out about this for years, but skype purged message history for inactive users around like 2018. there’s virtually no way i can show proof unfortunately but i know im not the only one this has happened to. i actually had a coworker IRL who also went to SCAD, and he did the exact same thing to them around the same age

5:54 PM

also i was close to ivory when they tried to come out about what happened, and it’s all real. and i still can’t believe people dismissed it just because he “came out” about his fetish. like all of those messages, all the weird shit, still happened and everyone ignored it

5:58 PM

in fact i remember ida harassing ivory in DMs, full on gaslighting them and saying shit like “no one will ever believe you” it was fucking horrible lol

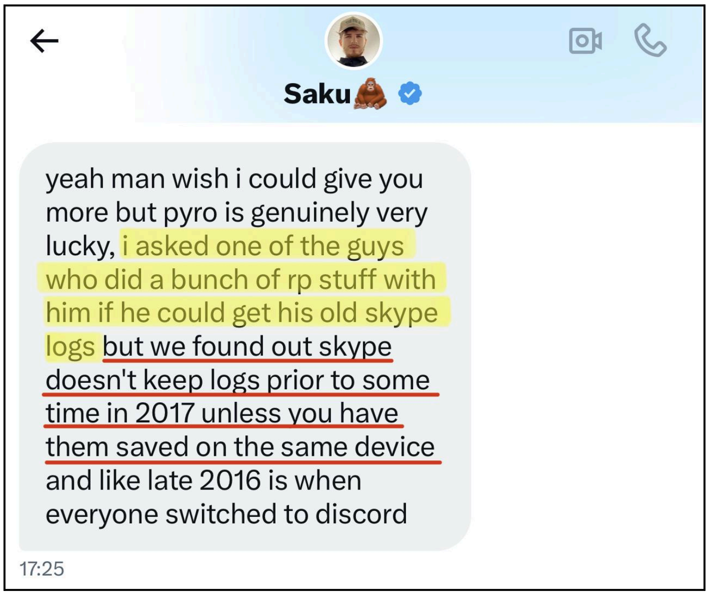
Popular Twitter furry artist igloofella [made a Tweet]() discussing one of the alleged victims of Niall who had contacted them in DM’s. These DM’s from an anonymous account go over how when they were **12**, they were in a **Skype group with Pyrocynical and other artists in 2016**. What ensued was **Pyrocynical allegedly asking them to create furry ‘fat’ fetish content consistently any time they wanted to speak with him**. They go on to highlight how **they then created and produced this content** not knowing it was inherently inappropriate or sexually suggestive. This user also had highlighted that *Skype* ***purged*** *message history for inactive users in 2018*, meaning **there was no possible way for them to retrieve message logs**. They also followed up by stating how they had a coworker IRL **who was the same age as them at the time [12] when Pyrocynical also requested them to make furry fetish content** for his own sexual gratification.



Saku🦧

Did Skype delete messages before 2017?

*Messages, videos, video messages, and pictures are available until they are deleted or dated back to April 2017 and chat titles until deleted or users leave conversations.

Microsoft Support
https://support.microsoft.com › en-gb › skype › how-lo...

How long are files and data available in Skype?

Saku is also then seen attesting that he messaged another person Niall allegedly rp’d with, if he could get access to the old Skype logs for proof, however also attested that Skype didn’t keep logs prior to some time in 2017 unless you saved them on the same device.

Other victims are also close to Niall still, or still fans of his content and supportive of him, being unaware about how immoral and predatory it was for an adult YouTuber to have sexually communicated and interacted with them and other members of his fanbase, sending furry porn and discussing fetishes with anyone he could. Pyrocynical abused his power and influence to discuss sexual topics with minors and the community has downplayed his behaviour to the point where other victims have been gaslighted into believing the behaviour was not predatory but instead merely just “morally grey” and degenerate with it being made into a joke inside of Pyrocynical’s community.

However by finding pre-existing call-out posts and numerous people calling out Niall’s behaviour in which has went under the radar, I wish to show a pattern of Pyro’s behaviour and prove that Louanne and Ivory were definitely not the only minor Pyrocynical engaged with, and what will be shown here is only the tip of the iceberg.

just what alex was saying to me today about keem
it reminded me of all the rp stuff I used to do last year
there’s like so many fucking ppl I did with it’s unreal
I don’t even remember who and how many it’s that bad
if any of them suddenly don't like my content or for whatever reason
they can just out me and then everyone else will start coming forward
all it takes is one person and it’s a chain reaction
I was contimplating deleting my discord and making a new one but I dont think that deletes all the messages
so it's still there, I didn't ever ask for nudes or anything like that it was just furry shit but yea it happened and it's just a ticking time bomb
every morning I wake up with anxiety and check my phone waiting for someone to message me saying "yo have you seen what keem tweeted"
it's going to happen one day and I feel fucking helpless, that's why I'm so quiet in calls n stuff I'm just always fucking thinking about it all the time
it's take up such a large part of my life it's unreal unless I'm in the best mood possible I'm always thinking about it
please don't share this message or anything I haven't and can't tell anyone except you

Niall himself even acknowledges the fact that he sexually messaged and engaged with many people that it is simply “unreal”. He claims that “**he doesn’t even remember who they are or how many**”, which is a testament to how many other people there are to which we will never know.

Pyrocynical is seen stating that just 1 victim coming out scared him, because it could trigger a chain reaction of other people coming out too in response. Niall affirmed in his response video that the reason he said this was because he was always anxious and afraid of his degenerate fetishes being known to everyone. However, by peeling back the layers of his actions you can clearly see that he was also afraid of the ramifications and consequences from those he affected, many having been **minors**.

When a woman came out alleging that Pyrocynical sexually messaged them when they were 15, and he was 19, instead of people supporting her, they harassed her, belittled the situation and immediately discredited her as someone who was “desperate for attention”.
This is a common response of naive and impressionable children who are overtly parasocial and too attached to their favourite YouTuber, they will oftentimes brush off any criticism or evidence by trying to attack the accuser's character rather than the validity of their points. Instead of being level headed and mature, they will rush in and immediately attempt to use the term “clout chaser” to invalidate and brush off their experiences which is absolutely disgusting, and that behaviour should be completely looked down upon because it was revolting to see what Ivory had to go through, in the face of lies, misinformation and harassment thrown his way.

The reason for why many victims do not come out, is because of how spiteful and malicious members of Pyrocynical’s fanbase can be, and the horrific amount of backlash that befell Ivory, despite him being objectively a victim.

you're putting me in a scary position by doing this. as much as i want justice, i don't want have an onslaught of rabid Pyro fans invalidating my experiences, be objectified by them or have them send me fucking death or rape threats AGAIN.

the reality of the situation is, i lack the evidence that is needed. Pyro (along with his fans) can easily dismiss me- just like how they did with ivory who had WAY more damning information then i did.

i don't want attention. i don't want this.
you want to take down pyro? debunk the shit that he already said about the situation PUBLICLY, go over the nature of Ivory and pyro's dynamitic.

a grown man discussing his sexually fantasies to someone underage is NOT normal and continuously exposes his teenage audience to his greasy fucking slop.

it MIGHT work, it might not. with the absolute loyalty that his ass kissers have. i doubt anything will happen.

im sorry but you're reaching a dead end here with me.

We had originally contacted an alleged victim of Pyrocynical, they will be colour coded as Pink for their privacy. They stated how they were extremely scared of the potential harassment which could befall them if they publicly came out, they also highlighted how they didn't wish to be objectified by them again and face possible death or rape threats.
He also went on to highlight how despite all the proof Ivory showed, Pyrocynical fans still went on to harass him and dismiss his story, which put a lot of other victims off ever addressing their trauma again.

They stress that they don't see that anything can come of this because they have lost the evidence after all these years, and the fact that his fans are so loyal that they will probably never come to terms with how severe and prolific his actions were.

Essentially Niall has had a **perfect storm** when it has come to these allegations, many of the people he sexually engaged with has faced a plethora of issues that have severely limited available proof present now, further complicated by his fanbase that have harassed Ivory into silence, with other victims now being entirely afraid to come out about their experiences for fear of experiencing the same level of harassment.

For clarification, what will now be covered are additional allegations levied against Pyrocynical from other people who have either came out showing credible evidence that Pyrocynical had sent them porn, sexual messages, fetish based conversations or fetishistic suggestive images to them whilst they were minors and he was an adult.
While some allegations hold more weight than others for a variety of factors presented, it is important to understand that it helps build a picture in regards to Niall's concerning behaviour and it should not go ignored. **All users presented in this segment were mutuals with, or had direct contact with Pyrocynical.** While some instances have significantly less proof than others, it is crucial to show how prolific the situation allegedly was, and hopefully it stimulates any other possible victims to come out about their experiences, as there are **many more**.

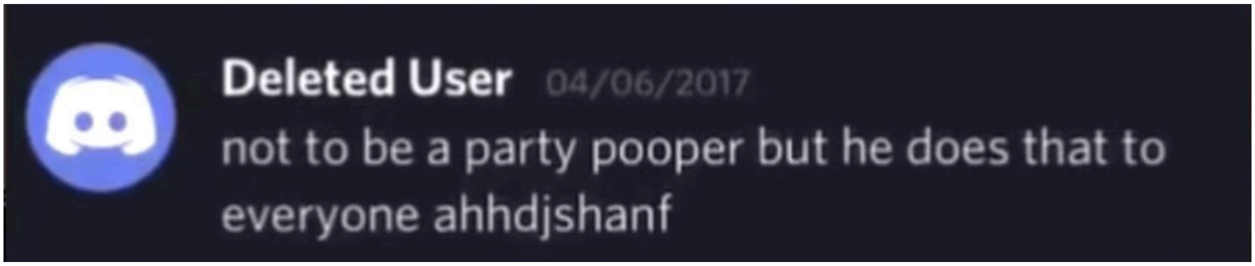
As Ida stated herself on June 4th 2016 to Ivory;
"**He [Niall] does that to everyone**".



Deleted User 04/06/2017

Conclusion

Where the ability is available, Pyrocynical will be sure to take any option that gives him the **benefit of the doubt** even if that means flat out lying, unless he is pushed on his stance with new evidence and public opinion starts breaking against him, to which he will then seen gradually admitting more and more, only to the point where he is still able to have a path to weasel his way out of the situation.
Even if we were to be extremely charitable, Niall cannot continuously use the “I didn’t know the age excuse”, especially when he used it in reference to Ivory and it was more probable than not that he knew Ivory was probably a minor long before Ivory ever sent a link to his Twitter with his age present in his bio. Yet because there is **no conclusive evidence** of Ivory stating his age verbatim, he took the only route available by **feigning ignorance.** Pyrocynical just didn’t expect that someone would comprehensively go over the numerous red flags and instances of Ivory heavily alluding to the fact that he was a minor, which directly starts to break down his Response.

He has unfortunately up to now, been able to consistently play this off as a joke to avoid accountability because his fanbase don’t see how immoral this behaviour actually is.

There is an **undeniable pattern of minors** who Pyrocynical has been proven to have been in contact with or mutuals with, coming out over the years accusing him of inappropriate conduct, however people will continue to consistently make excuses and play down the situation instead of processing that clearly some malicious pattern of behaviour is being unraveled here.
